MTC and Small Business Enterprise Vendors

Management & Training Corporation is committed to supporting small business enterprises by incorporating them into our strategic supply base. As we strive to meet and exceed the small business spend goals outlined in our Prime contracts, we establish numerous subcontracts and national agreements with small businesses that provide competitively priced goods and services.

MTC's supplier selection process for national agreements includes a step to collect information from potential vendors before they are selected to participate in the Request for Quote.

The potential vendor completes a "Prospective Vendor Profile Questionnaire" that identifies the vendor's capabilities and indicates whether it is a small business or has affiliations to sell through tier-one small business partners.

If a vendor is a small business, it positively influences MTC's decision for that vendor to continue in our supplier selection process.
