

## Making an impact in people's lives since 1981

At MTC, caring about others, giving back, and making a social impact are the foundation of all we do. Since 1981, MTC has helped disadvantaged populations rise above their challenges to earn academic and technical training credentials and live meaningful, productive lives. MTC's core business in Corrections, Education & Training, MTC Medical, and Economic & Social Development is helping others to succeed in life and prosper in their communities. MTC currently educates and trains more than 11,000 students, provides safe and secure rehabilitation and transition services to more than 70,000 offenders and detainees, and provides healthcare to more than 40,000 offenders and detainees.

## How we help people

MTC is a leader in social impact by:

- Providing effective rehabilitative programs and services to men and women to make their time in prison more productive and to reduce re-offending
- Educating and training America's at-risk youth so they have the technical and life skills they need to find and keep good jobs
- Caring for the medical, dental, and mental health needs of the men and women in our care
- Providing workforce training to citizens of other countries so they can take care of themselves and their families
- Reducing re-offending in the United Kingdom by providing transitional services to those serving time, probationers, and parolees

"The warden and other staff really cared about me. The facility gave me the opportunity to learn things that have been helpful to me in society today."

~ Paul McAfee, Former Offender, Diboll Correctional Center, Texas

"Because of Job Corps, I was able to graduate from high school, get certified in welding, and start an independent life with a great, well-paying job."

~ Viviani Munguia, Clearfield Job Corps Center Graduate

In 2018, MTC trained thousands of students and helped rehabilitate thousands of men and women thanks to a team of dedicated, professional, and talented staff.
