

# MTC MEDICAL

## Making an impact in people's lives since 2005

Since 2005, MTC Medical has provided quality medical, dental and mental-health services to men and women in our care. It's made a big difference in the lives of those individuals who are working hard to turn over a new leaf.

MTC Medical provides more than 14,500 men and women at 12 facilities with prompt, professional, quality health and dental care. MTC's certified doctors and high-level nurses provide excellent care and promote healthy lifestyles. Patients seen by MTC Medical staff are grateful for the prompt and caring service they receive.

## How we help people

The MTC impact in 2018:

- **71,424** diagnostic, physical, and medical exams performed to promote overall health and wellness
- **32,336** comprehensive mental health visits conducted to ensure offenders and detainees are well cared for
- **24,688** dental evaluations and services provided to offenders and detainees to ensure proper dental hygiene

“MTC Medical staff saved my life...the MTC staff at Taft went above and beyond the call of duty! I was shocked by everyone's kindness and concern. I truly believe that the concern of everyone here saved my life even when I did not understand how serious my condition was.”  
~ Taft Correctional Institution

“When I have had to come to medical, my needs have been addressed. Any medical conditions I've had, any medications I've needed, I get it in a timely manner. So basically, I'm pleased with the medical department here.”  
~ Otero County Prison Facility

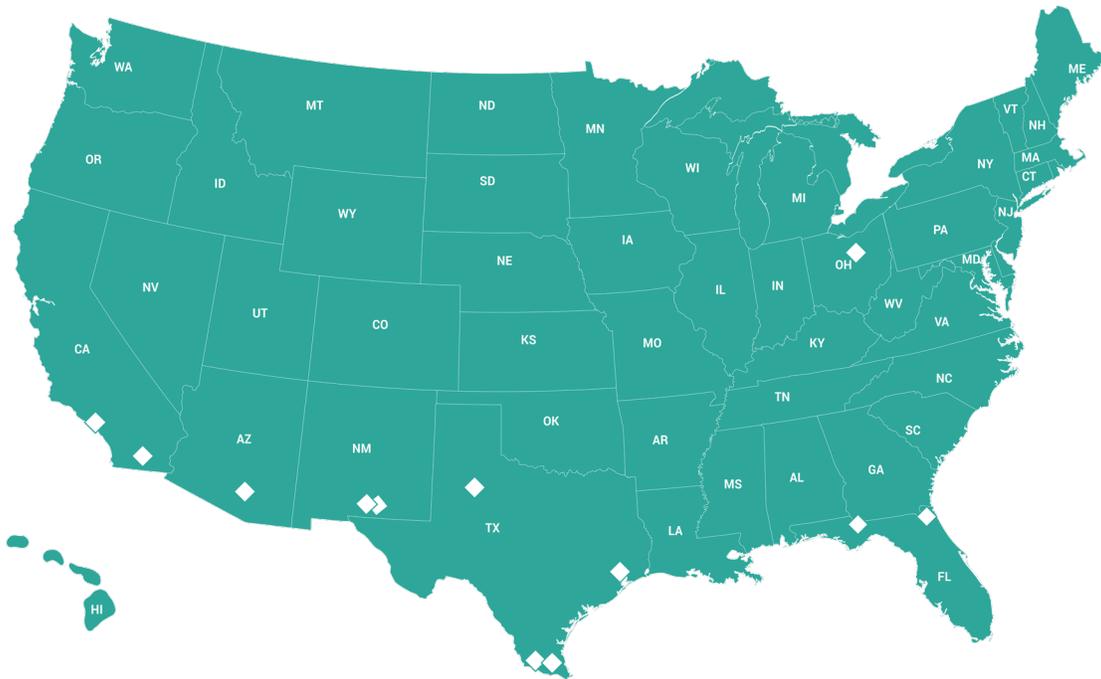

In 2018, MTC helped prepare individuals to successfully transition back to society by providing quality health care.

**53,693**  
medical exams  
completed

## Where we help people

MTC healthcare professionals provide services to men and women at all levels of supervision and management for clients including the Federal Bureau of Prisons, Immigration & Customs Enforcement, U.S. Marshals Service, and state departments of corrections. Our quality of service is based on:

- Skilled management team
- Highly experienced and engaged physicians and on-site medical staff
- Cost-effective care
- Sophisticated data-management systems
