<b>TOTALS</b>	<b>59</b>	<b>7</b>	<b>17</b>	<b>30</b>	<b>5</b>	<b>59</b>

## Summary of Necessary Action(s) Resulting From Review

115.13 In calculating adequate staffing levels and determining the need for video monitoring, facilities shall take into consideration the prevalence of substantiated and unsubstantiated incidents of sexual abuse.

<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Is additional staffing needed?
Comments: After review, it was determined that the limited number of incidents, both substantiated and unsubstantiated, would not have been prevented by additional staff.	
<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Is additional video monitoring and/or other monitoring technologies needed?
Comments: There were several areas where additional video monitoring was identified as appropriate. As a result, MTC is working to develop a "roadmap" for each facility that will provide guidance in the incremental improvement of facility video monitoring capabilities.	
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Should additional resources be committed to ensure adherence to the staffing plan?
Comments: Additional resources are not necessary to ensure adherence to the staffing plan. Staffing plans are contractual documents which are rigorously monitored by our respective customer agencies.	
115.88 Assessment performed based on review of data collected for 2013 to improve effectiveness of the MTC sexual abuse prevention, detection, and response policies, practices, and training.	
<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Problem areas identified?
Comments: Various problems areas were identified through the assessment. The majority of the problems revolve around obtaining documentation for specialized investigative training for those agencies authorized to perform investigations.	
<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Corrective action implemented?
Comments: Yes. Each case is unique and requires different action. In many cases, our ability to correct the problem is limited.	
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	Comparison of the current year's data and corrective actions with those from prior years made to assess progress made?
Comments: Inasmuch as this is MTC's first annual report, prior year documentation is not available with the exception of BOP's 2012 annual report.
