AUDIT FINDINGS

NARRATIVE

Methodology

The PREA audit of the Sanders Estes Correctional Center (SECC), a facility operated by the Management and Training Corporation (MTC) for the Texas Department of Criminal Justice (TDCJ), was conducted on August 2-3, 2017. The facility posted the required PREA audit notice of the upcoming audit sixty days prior to the audit for confidential communications. As of August 1, 2017, there were no communications from inmates or staff. The Pre-Audit Questionnaire was completed by the facility and sent to the auditor as required. The PREA compliance Manager confirmed that all information on the Pre-Audit Questionnaire is accurate.

The audit process was a team approach. The Audit Team completed a Pre-Audit review using the Pre-Audit Questionnaire, internet search, policies and procedures review, and additional documentation provided on the flash drive. The results of the Pre Audit review were shared with the facility prior to and at the site visit. Phone conversations were conducted and emails exchanged with the facility.

The Audit Team consists of Adam T. Barnett, Sr., Certified Juvenile and Adult PREA Auditor (Lead Auditor) and Latera Davis (Associate). Mrs. Davis currently works as the Director of Victim and Volunteer Services for the Georgia Department of Juvenile Justice. She is a Licensed Clinical Social Worker, Certified Child Forensic Interviewer, Certified Victim Advocate, Certified Juvenile Sex Offender Counselor, and POST Instructor Trainer, as well as a Certified Peer Grant Reviewer for the Department of Justice Programs.

- Lead PREA Auditor
- Associate Auditor
- PREA Compliance Manager

Welcomes were given by staff as well as staff introductions. The Lead Auditor and PREA Associate were introduced and the PREA Audit Agenda was reviewed and released. Additional pre-audit information requested weeks prior to on-site visit obtained.

Site Tour

On the first day of the audit after the entrance conference, the lead PREA Auditor toured the physical plant escorted. The Auditor spoke informally with 27 staff and 12 inmates during the tour which covered housing and common areas of the facility, day areas, programming areas, and shower and toilet areas. The Auditor noted video camera placement throughout the facility and reviewed the video monitoring setup in the control room areas. Notices of the PREA audit were posted throughout the facility as required by the Auditor.

During the tour of the physical plant, the Auditor observed the location of cameras, staff supervision of inmates, dorm layout including sleeping rooms and shower/toilet areas, placement of posters and PREA informational resources, security monitoring, inmate’s movement procedures, and inmate’s interaction with staff. The Auditor noted that shower and toilet areas allow inmates to shower ensuring their privacy from staff direct viewing. The auditor was provided unimpeded access to all parts of the facility and all secure rooms and storage areas in the facility.

The laundry room had cameras and no blind spots. The dining room has PREA information to include PREA posters. Cameras were located in the dining room as well as in all locations in the kitchen. Cameras were located in the Administration area; most of the office doors had the safety windows.

SUMMARY OF AUDIT FINDINGS

The Auditor conducted an exit conference with the agency and facility officials on Wednesday, August 2, 2017. Agency, facility officials and staff were very open and receptive to an honest discussion of areas where PREA compliance needs to be strengthened and the facility PREA compliance Manager began corrective action on each provision immediately. There was a concern addressed relating to standard 115.67. The details and corrective actions are under standard 115.67.

Present at the exit conference:

- Facility Warden
- Facility PREA Compliance Manager
- Leaded Auditor
- Associate

The standards are rated as exceeded, met, not met or not applicable. Most standards have between 1 – 15 provisions. To achieve compliance on any given standard, the facility must achieve 100% compliance with each provision within the standard. The auditor used the Department of Justice Final Rule Prisons and Jail PREA Standards published in May 17, 2012. Forty-three (43) Prisons and Jail Standards were audited.

Specific detail about deficiencies and corrective actions regarding these findings appears in the standard-by-standard discussions in the main body of the report. The facility completed minor concerns within the 45 days before the auditor released the final report, corrected results will be noted with each standard.

Number of standards exceeded: 0

Number of standards met: 40

Number of standards not met: 0

Number of standards not applicable: 3 (115.12; 115.14; and 115.18)
Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. - Interviews:
  o Sr. Director, Management & Operations (Agency PREA Coordinator)
  o Facility PREA Compliance Manager

Findings (By Provisions):

(a) Management & Training Corporation (MTC) published the agency Policy Serial Number 903E.02, Ensuring Safe Prisons that mandates a zero tolerance toward all forms of sexual abuse and sexual harassment. The policy outlined the agency’s approach to prevent, detect, and response to sexual abuse and sexual harassment. The agency policy outline is found in section F.2. (b) On page 6. The agency policy clearly defines general definitions and definitions of prohibited behaviors to include sexual abuse and sexual harassments.

(b) Management & Training Corporation (MTC) policy Serial Number 903E.02 Ensuring Safe Prisons, designates an upper level PREA Coordinator for the company who has sufficient time and authority to develop, implement and oversee MTC’s efforts to comply with the PREA Standards in all its facilities. The agency operates more than one facility; each of MTC’s facility is required to designate a PREA Compliance manager with sufficient time and authority to coordinate the facility’s efforts to comply with the PREA Standards.

MTC provided information from the Senior Vice President designating the senior director, management and operational support, as the MTC PREA coordinator. A phone interview with the PREA Coordinator confirmed he is knowledgeable of the PREA Standards and has sufficient time and authority to perform his duties in that role. MTC has taken an additional step by designating an assistant PREA Coordinator. MTC’s Policy and Audit Director, is designated as the Assistant PREA Coordinator. These individuals are higher level staff who have the authority and ability to implement the PREA Standards with the complete support of the Senior Vice President. Interviews
with both the PREA Coordinator and the Assistant PREA Coordinator indicated they have an exceptional knowledge of PREA and both have invested considerable time and energy into working with their facilities to maintain compliance with all the PREA Standards.

(c) The Warden of Sanders Estes Correctional Center provided a memo designating the ACA Compliance Manager as the prison PREA Compliance Manager. An interview indicated that she has a great deal of correctional experience and sufficient time and authority to coordinate the facility’s effort to comply with the PREA Standards.

**Standard 115.12 Contracting with other entities for the confinement of inmates**

- ☐ Exceeds Standard (substantially exceeds requirement of standard)
- ☐ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- ☐ Does Not Meet Standard (requires corrective action)

*Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.*

This standard directs placing oversight responsibility on agencies that contract with private agencies or other entities for the confinement of their resident further ensures that people who are confined pursuant to a contract with a PREA compliant jurisdiction share the same protections for sexual abuse and sexual harassment.

This standard is rated non-applicable.

**Supporting Documents, Interviews and Observations:**

- Management & Training Corporation (MTC) Policy Serial Number 903E.02 (August 1, 2016)
- Memo Re: Contracting with other entities for the confinement of Inmates (2/13/2014)
- Solicitation, Offer and Award (December 17, 2014)
- PREA Audit: Pre-Audit Questionnaire / Adult Prisons & Jails
- Interviews:
  - Sr. Director, Management & Operations (Agency PREA Coordinator)
  - Contract Administrator (Facility Administrator)

**Findings (By Provisions):**

This standard is rated non-applicable.

(a) MTC is the contracting agency and has delegated authority with direct responsibility for the operation of facilities that confine inmates and detainees; it does not have authority to contract with other entities for the confinement of inmates. Therefore, Sanders Estes Correctional Center does not have authority to contract with other entities for the confinement of inmates. Interviews with the Agency PREA Coordinator and the Facility Warden indicated that the facility does not and has not contracted any other entity for the confinement of inmates.

Per a review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews, there were
zero contracts for the confinement of inmates that the facility entered or renewed with private entities or other government agencies since the last PREA audit.

**Corrective Action and Verification**: None

**Standard 115.13 Supervision and monitoring**

This standard directs the facility in how to monitor and supervise inmates as it relates to PREA.

- Interviews:
  - Sr. Director, Management & Operations (Agency PREA Coordinator)
  - Facility Warden
  - Facility PREA Compliance Manager
  - Higher Level Facility Staff (Deputy Warden)

**Findings (By Provisions):**

(a) Sanders Estes Correctional Center develops, documents, and makes its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and uses video monitoring to protect inmates against abuse. An interview with the Warden indicated that the facility takes into consideration the 11 requirements in standard 115.13 (a) – 1:

- Generally accepted detention and correctional practices;
- Any judicial findings of inadequacy;
- Any findings of inadequacies from Federal Investigative agencies;
- Any findings of inadequacy from internal and external oversight bodies;
• All components of the inmate population;
• The composition of the inmate population
• The number and placement of supervisory staff; institution programs occurring on a particular shift;
• Any applicable State or Local Laws, Regulations or Standards;
• The prevalence of substantiated or unsubstantiated incidents of sexual abuse; and
• Any other relevant factors.

(b) An interview with the Facility Warden revealed each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan. Cameras are strategically located to supplement staffing and to enhance supervision of inmates. The auditor is not going to provide further information related to these because of security concerns however, observations made during the tour confirmed this facility has a considerable number of cameras strategically located throughout the facility supplementing supervision inside the facility fence and outside.

(c) MTC Policy 903 E.02 and the interview with the Facility Warden revealed that at least annually, in collaboration with the PREA coordinator, the facility reviews the staffing plan to see whether adjustments are needed in:

• The staffing plan;
• The deployment of monitoring technology or
• The allocation of agency/facility resources to commit to the staffing plan to ensure compliance.

The Warden and PREA Compliance Manager, in interviews, confirmed the process for conducting annual reviews. There were no allegations of sexual violence and no deviations from the staffing plan, and there is no need for adjustments to the staffing plan.

Per a review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews, the average daily number of inmates on which the staffing plan was predicated was 1040.

(d) Interviews with the Facility Management Team and documentation reviewed revealed that the intermediate level and/or higher level staff conduct unannounced rounds to identify and deter staff sexual abuse and sexual harassment. MTC Policy Serial No: 903E.02, section 3.c, page 6, requires unannounced rounds to be performed on all shifts and all areas of the facility occupied by inmates.

When announced rounds are being conducted, Sanders Estes Correctional Center policy directs staff not to alert other staff. Policy 1.01 Central Control page 1, states “staff is prohibited from alerting other staff members that supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility. There is a concern with the following wording within the policy “rounds to be performed on all shifts and all areas of the facility occupied by inmates”. Interviews with some intermediate level staff indicated that they only conduct unannounced rounds only where the inmates are located and not areas such as close kitchen, laundry, gym, admin areas.

The facility provided documentation to confirm unannounced rounds are being conducted. Unannounced rounds are documented in the log books in the inmate’s living units. The documentation reviewed from the log books only states “conduct rounds”.

Standard 115.14 Youthful inmates

☐ Exceeds Standard (substantially exceeds requirement of standard)

☐ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)

☐ Does Not Meet Standard (requires corrective action)

**Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.**

This standard requires youthful inmates to be out of sight, sound and physical contact with adult inmates.

**This standard is rated non-applicable.**

**Supporting Documents, Interviews and Observations:**

- Management & Training Corporation (MTC) Policy Serial Number 903E.02 (August 1, 2016)
- PREA Audit: Pre-Audit Questionnaire / Adult Prison & Jails
- Memo: Youthful Inmates (May 9, 2017)
- Facility Tour
- Interviews:
  - Sr. Director, Management & Operations (Agency PREA Coordinator)
  - Facility PREA Compliance Coordinator

**Findings (By Provisions):**

(a) Interviews with the Agency and Facility Management team and, a review of facility demographics/documentation reveal that Sanders Estes Correctional Center does not admit youthful inmates. A Memo dated August 26, 2016 reveals that The Sanders Estes Correctional Center is a private contract facility tasked with the obligation to house adult male criminal alien inmates. Upon arrival, the inmates are screened by unit Classification personnel to ensure the inmate meets contract requirements to include adult status. If a inmate deemed “youthful” is received, the facility has a process whereby the youthful inmate is held in restrictive housing. Necessary services are provided while awaiting transfer to an appropriate location.

Interviews with the Facility PREA Compliance Manager and randomly selected staff indicated youthful inmates are not housed in this facility. Interviewed randomly selected staff stated youthful inmates are not housed at this facility during the audit period no youthful inmates were observed.

The PREA Audit: Pre-Audit Questionnaire / Adult Prison & Jails indicated in the past 12 months, the number of housing units to which youthful offenders are assigned is zero.

According to a review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews, in the past 12 months there were no youthful offenders housed at the facility.

Standard 115.15 Limits to cross-gender viewing and searches

☐ Exceeds Standard (substantially exceeds requirement of standard)
☒ Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
☐ Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

This standard directs the facility about how it treats transgendered and intersex residents in regards to cross-gender strip searches or cross-gender body cavity searches.

Supporting Documents, Interviews and Observations:

- Management & Training Corporation (MTC) Policy Serial Number 903E.02 (August 1, 2016)
- 903E.02 Ensuring Safe Prison – Pg. 1, 7
- Memo: Female Inmates (May 9, 2017)
- Texas Department of Criminal Justice – Post Order (October 15, 2015)
- Texas CID – Management Operations FY2017
- Sanders Estes Correctional Center Training Rosters
- PREA Audit: Pre-Audit Questionnaire / Adult Prison & Jails
- Interviews:
  o Sr. Director, Management & Operations (Agency PREA Coordinator)
  o Random Officers
  o Non-Medical Staff Cross Gender Searches (Officer)
  o Random Inmates

Findings (By Provisions):

(a) MTC policy directs staff not to conduct cross-gender strip searches or cross-gender visual body cavity searches (meaning a search of the anal or genital opening) except in exigent circumstances or when performed by medical practitioners. Documentation review indicated Sanders Estes Correctional Center reports no exigent circumstances for this audit period. The facility maintains a log book to document when exigent circumstances occur. Memo Re: Female Staff and Cross-Gender Strip/Visual Body Cavity Searches dated August 26, 2016, states that the facility houses adult male inmates. The facility’s search policy prohibits female staff from conducting strip searches or cross-gender visual body cavity searches except in exigent circumstances or when performed by authorized medical personnel. Facility documentation also indicated that no female staff member has been authorized to conduct the above searches within the PREA audit period. The facility provided documentation that the Sanders Estes Correctional Center is for the management and operations of adult male offenders and female offenders are not housed in this facility. Interviewed staff related female staff does not conduct cross-gender pat searches of male inmates. Interviews with inmates confirmed that none of them had been strip searched by a female officer.

(b) Sanders Estes Correctional Center rated capacity is 1040, which exceed the 50 inmate rule. This provision does not apply.

(c) Staff interviews and facility documentation indicated that all cross-gender strip searches and cross-gender
visual body cavity searches will be documented. The facility only houses male inmates. Female Officers do not conduct cross-gender strip searches and cross-gender visual body cavity searches.

(d) MTC Policy 903E.02, Limits to Cross-Gender Viewing, section C, requires Sanders Estes Correctional Center to implement policies and procedures that enable inmates to shower and perform bodily functions and change clothing without non-medical staff of the opposite gender viewing the breasts, buttocks or genitalia, except in exigent circumstances or when such viewing in incidental to routine cell or bed checks. Interviewed inmates stated they are never naked in full view of staff and are provided privacy while changing clothes, showering and using the restroom. Observations of restrooms and shower during the tour confirmed inmates have privacy when using the restroom, showering and changing clothing. PREA friendly shower curtains are at the door way of the bathrooms and the shower areas to provide a little privacy even in an open bay dormitory style pod or dorm. Inmates reported they are never naked in full view of cross-gender staff.

(e) According to staff interviews and documentation review, the facility has not housed any transgender or intersex inmates. However, MTC policy directs staff not to search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. If the inmate’s genital status is unknown, the facility determine during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

(f) If the facility were to receive a Transgender or Intersex inmate, the staff is trained on how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. The facility provided samples of documentation to confirm staff has received and receive search training consistent with the MTC policy. The PREA Compliance Manager confirmed there have been no cross-gender strips or visual body cavity searches conducted within the audited cycle.

Per a review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interview, in the past 12 months there were zero cross-gender strip and visual body cavity searches of inmates.

Overall Interview Results:

Fifteen (15) security staff, representing staff from all shifts, was interviewed. One hundred percent (100%) of staff interviewed indicated that cross-gender pat searches were not permissible. One hundred percent (100%) of the interviewed staff stated that they were trained on conducting cross-gender pat searches and searches; however one (1) staff could not recall receiving training on searches of transgender and intersex inmates in a professional and respectful manner. All of the interviewed staff reported that staff is prohibited from searching or physically examining a transgender or intersex inmate for the purpose of determining the inmates genital status. All but two (2) staff members reported that inmates are able to dress, shower and toilet without being viewed by female staff.

All but three (3) inmates reported that the presence of female staff is announced when they are entering the housing male areas. Some of the inmates stated that most of the female staff announces their presence but a couple of them are not as consistent. All of the inmates reported that no one can see them when they are showering, using the toilet, or changing clothes.

No female inmates are housed at the facility.

- PREA Audit: Pre-Audit Questionnaire / Adult Prison & Jails
- Interviews:
  o Sr. VP MTC Corrections (Agency Head)
  o Random Officers
  o Random Inmates
  o Disabled Inmates
  o English Proficient Inmates

Findings (By Provisions):

(a) The facility has taken appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the facility’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment. To ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the facility ensures that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or who are blind or have low vision.

The Sanders Estes Correctional Center provided PREA documentation in different formats for those inmates that meet the requirement. Video is used during orientation as well as in the dorm setting. PREA related information is delivered to the inmate population through a closed-circuit television.

(b) The facility has taken reasonable steps to ensure meaningful access to all aspects of the facility’s efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient.
proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. Staff interviews and documentation indicated that onsite interpreters are provided for Spanish speaking inmates. Assistance may be requested through security staff. Outside interpreting services are available to the inmate population as dictated by policy and customer requirements. Interviews with the PREA Compliance Manager and other staff indicated that several staff members speak Spanish.

(c) The facility does not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate’s safety, the performance of first-response duties or the investigation of the inmate’s allegations. Interviewed staff consistently stated they would not allow, except in emergency situations, an inmate to translate or interpret for another inmate in making an allegation of sexual abuse. They indicated there is staff always working the shift who speaks Spanish, the predominant language of the inmates.

The protocol is appropriate, and is adapted from or otherwise based on the most recent edition of the U.S. Department of Justice’s Office on Violence Against Women publication, “A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents,” or similarly comprehensive and authoritative protocols developed after 2011. The facility does not house youth/Adolescents.

If there was a sexual abuse allegation, interviewed staff indicated that the facility will offer all victims of sexual abuse access to forensic medical examinations at an outside hospital, without financial cost. Examinations are performed by Sexual Assault Forensic Examiners (SAFEs). If SAFEs cannot be made available, the examination is performed by other qualified medical practitioners at the hospital. Staff interviews with the Case Manager and the Mental Health Professional indicated that the facility uses the TDCJ Form and the PREA Intake Objective Screening Instrument to document this process. The PREA Intake Objective Screening Instrument has all of the required criteria. The results of the assessment are documented on the Intake Screening Form whether the inmate is vulnerable or sexually aggressive.

Interviews and documentation reviewed indicated that the Mental Health staff reassesses the inmates’ risk level for sexual victimization or sexual abusiveness whenever warranted and within 30 days of arrival at the institution if the inmate is identified at risk for victimization or for being at risk for being sexually abusive.

Inmates with an at-risk history are scheduled with Mental Health for a minimum of two mental health appointments. As of recent changes, the inmates are assessed during this period by a Professional.

(e) Inmates are not disciplined for refusing to answer, or for not disclosing complete information in response to any questions as stated in section (d).

(f) The agency implements appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the inmate’s detriment by staff or other inmates as described above.

Overall Interview Results:

All but one (1) of the interviewed inmates could recall being asked questions regarding prior history of sexual abuse, or whether they identified as being gay, lesbian, or bisexual. These questions were asked upon arrival and during the intake process. Only 75 percent of the interviewed inmates could recall being asked the same questions again since their arrival at the facility.

  - Facility PREA Compliance Manager
  - Staff Screening for Risk of Victimization and Abusiveness
  - LGBTI Populations Inmates
  - Transgender and Intersex Inmates

Findings (By Provisions):

(a) MTC Policy 903E-02, Ensuring Safe Prisons B.17, Use of Screening Information, (a), requires the Sanders Estes Correctional Center to use information from the risk screening required to inform housing, bed, work, education and program assignments with the goal of keeping separate those inmates at high risk for being sexually victimized from those at high risk of being sexually abusive. Individualized determinations about how to ensure the safety of each inmate will be made according to staff interviewed.

(b) The Sanders Estes Correctional Center did not have any transgender or intersex inmates during the audit period. However, if the facility receives a transgender and in deciding whether to assign a transgender or intersex inmate to which male living unit and in making other programming assignments, the facility will consider on a case-by-case basis whether a placement would ensure the inmate’s health and safety, and whether the placement would present management or security problems.

(c) Staff interviews indicated that when making placement and programming assignments for each transgender or intersex inmate the facility will reassess them at least twice each year to review any threats to safety experienced by the inmate.

(d) Staff interviews also indicated if they were to have a transgender or intersex inmate, the inmate’s own views with respect to his or her own safety will be given serious consideration.

(e) Transgender and intersex inmates will be given the opportunity to shower separately from other inmates.

(f) Interview with the Facility PREA Compliance Manager indicated that the facility will not place lesbian, gay, bisexual, transgender, or intersex inmates in dedicated facilities, units, or wings solely based on identification status for protecting such inmates.

Overall Interview Results:

One (1) inmate interviewed identified as being gay. The inmate reported feeling safe at the facility and throughout his stay.
has encountered several administrative as well as line staff that he can speak to. The inmate stated that the staff have been very open to him and frequently check on him to see how he is doing and if he feels safe. The inmate reported that there is no segregated housing for the LGBTI population, however if there was segregated housing for the LGBTI population “more inmates would come forward to disclose their sexuality”. The inmate reported that he is treated like all other inmates and that all inmates shower the same.

(a) Interviews and documentation review at Sanders Estes Correctional Center indicated that inmates at high risk for sexual victimization are prohibited from being placed in involuntary segregated housing unless an assessment of all available alternatives has been made and a determination has been made that there is no available alternative means of separation from likely abusers. Interviews also reveal that if an assessment cannot be immediately completed, the facility will hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.

(b) Staff interviews indicated that if an inmate is placed in segregated housing they will be provided with access to programs, privileges, education, and work opportunities

(c) If Sanders Estes Correctional Center assigns inmates to involuntary segregated housing, policy requires them to be housed only until an alternative means of separation from likely abusers can be arranged, and assignments do not exceed 30 days.
(d) If the facility places an inmate in involuntary segregated housing, the facility will document as required by this provision.

According to a review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirm by staff interview, there were zero inmates at risk of sexual victimization who were held in involuntary segregated housing in the past 12 months for one to 24 hours awaiting completion of assessment.

**Findings (By Provisions):**

(a) Interviews with staff and documentation review indicated that the facility has established procedures allowing for multiple internal ways for inmates to report privately to Sanders Estes Correctional Center and MTC officials regarding sexual abuse and sexual harassment, retaliation by other inmates or staff, to include staff neglect or violation of responsibilities that may contributed to PREA incidents. The follow are internal reporting ways:

- Grievance System
- Tell the Case Manager
- Chaplain
- Psychologist
• The Warden or any other staff member they trust
• Write directly to the Warden, or the Deputy Warden
• Facility PREA Compliance Manager
• Their Lawyers
• Family Members as Third Party
• Reporting using the Hotline

(b) Interviews with staff and documentation indicated that the facility has established at least one way for inmates to report abuse or harassment to a public or private entity that is not part the agency, and that can receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request. The following are external reporting ways:

• Write the Office of the Inspector General (OIG)
• Local Rape Crisis Center Hotline

An interview with the Facility PREA Compliance Manager and Memo from the Warden indicated that The Sanders Estes Correctional Center is a private contract facility tasked with the obligation to house adult male criminal alien inmates. The facility does not detain inmates solely for civil immigration purposes. However, if they receive an inmate solely for civil immigration purposes the facility will provide the inmate with information on how to contact relevant consular officials and relevant officials at the Department of Homeland Security.

Overall Interview Results:

All twenty (21) interviewed inmates stated that they had multiple ways to report. Most of the inmates reported that they could communicate with trusted staff, write a written report, notify family member or call OIG. Approximately half of the interviewed inmates were aware if they could make a report without having to provide their name.

A majority of the interviewed staff reported that they have multiple means to privately report sexual abuse or harassment. Such reporting opportunities included the hotline number, notifying shift supervisor, written or verbal, and the facility Warden.

The interviewed line staff reported that the inmates can privately reporting by using an inmate statement form, the hotline number, PREA Ombudsman, grievance, security or medical staff, family, or friends. Such reports can be made verbally or in writing. All of the interviewed line staff reported that if an inmate verbally or in writing reports sexual abuse or harassment the allegation is taken seriously and responded to immediately.

As previously stated, one (1) inmate disclosed that they have reported to authorities, either in person or in writing, that they had been sexually abused or harassed while at the facility.

2. According to staff interviews, the facility does not require a resident to use any informal grievance process as it relates to PREA, or to attempt to resolve the issue with staff, for an alleged incident of sexual abuse.

(c) According to Staff Interviews, the facility ensures that:

1. Residents who allege sexual abuse submit the grievance without submitting it to a staff member who is involved in the allegation. Grievance forms can be obtained from the case manager, the grievance officer or ask any staff member; they may mail it to the outside entity, and

2. The grievance is not referred to a staff member who is involved in the allegation.

1. Staff interviews indicated that if a resident files a grievance, the facility issues a final decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance. Staff interviews indicated no grievances were filed for the past 12 months.

2. An interview with the Grievance Officer indicated that computation of the 90-day time period does not includes time consumed by residents in preparing any administrative appeal.
3. MTC policy requires SECC Program to notify the resident in writing when the organization files for an extension, including notice of the date by which a decision will be made.

(c) Third Parties:

1. Third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, are permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse, and also permitted to file requests on behalf of residents.

(f) Emergency Grievances:

1. The facility has established procedures for filing emergency grievances alleging that a resident is subject to a substantial risk of imminent sexual abuse.

2. According to interviews, when the facility receives an emergency grievance alleging a resident is at substantial risk of imminent sexual abuse, the staff immediately forwards the grievance for investigations.

(g) Resident documentation indicated that the facility may discipline a resident for filing a grievance related to alleged sexual abuse when the resident filed the grievance in bad faith.

(b) The Sanders Estes Correctional Center informs inmates prior to them communicating with outside organizations that phone calls may be monitored and that reports of sexual abuse or sexual violence will be forwarded to authorities in accordance with mandatory reporting laws. Inmates receive this information in their Admission and Orientation Booklet. However, inmate interviews indicated concerns of not being able to report outside the facility confidentially on the phone without being recalled.

(c) The Facility maintains a memorandum of understanding with the local hospital. The center provides inmates with confidential emotional support services related to sexual abuse. The facility maintains a copy of the agreement of file.

Overall Interview Results:

The facility has the option to change inmate housing or transfer inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

(c) The facility reported that there is no retaliation for this audit reporting period. However, if the facility were to have issues with retaliation the policy will guide them on this standard. For example, for at least 90 days following a report of sexual abuse, the facility monitors the conduct and treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and act promptly to remedy any retaliation. Items the facility should monitor include inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The facility continues monitoring beyond 90 days if the initial monitoring indicates a continuing need.

Overall Interview Results:

One (1) interviewed inmate reported sexual abuse since being at the facility. The inmate was not the initiator of the disclosure however reported being confronted by staff regarding an intimate relationship with a staff member. The inmate has had dialogue with the Office of the Inspector General; however he feels that staff have retaliated on him for reporting on another staff member. The inmate stated that he has sought to obtain help from outside resources however staff have withheld his ability to send a letter to an outside source.

The inmate also reported not feeling safe at the facility and that several facility staff have verbalized their dislike and desire to “get back” at the inmate. The inmate stated that he has been in segregation for two weeks.
Corrective Action and Verification:

There is a concern that the inmate reported alleged retaliation against him for reporting a staff and inmate relationship. The Lead Auditor met with the inmate and the Deputy Warden/ Facility PREA Compliance Manager. After a detailed discussion, the Deputy Warden/PREA Compliance Manager agreed to enhance the existing retaliation monitoring process, providing additional information to security staff regarding retaliation within 45 days.

On August 22, 2017, the Lead Auditor received corrective action plan. The Corrective Action plan includes a directive for the Senior Warden for Deputy Warden to meet with the Offender on weekly basis to address any concerns that the offender may have regarding PREA violations or retaliation.

It was also reported that the offender was transferred to another facility on August 3, 2017 before the weekly meeting could be conducted. The transfer was due to his custody being downgraded from G2 to G4 for other disciplinary not related to this PREA allegation.

Interviews indicated MTC has a very sophisticated data system enabling the company to collect and report accurate data to answer all questions on the Survey of Sexual Violence and the system is set up to answer them sequentially. Additionally, the system has the capability for generating valuable reports including the following: PREA Allegations and Investigations Summary Report, PREA Allegations and Investigations Report by Site, Investigations by Facility, Master Investigation Log, Master Investigation Log by Site and others.

The reviewed 2015 MTC Annual Report was comprehensive and detailed and included Demographics of MTC Operated Facilities as well as detailed PREA Data.
