Name: Mark Lee		Title: Director, Corrections, Corporate PREA Coordinator	
Email address: mark.lee@mtctrains.com		Telephone number: 801-693-2864	

AUDIT FINDINGS

NARRATIVE

The PREA audit of the West Texas Intermediate Sanctions Facility (WTISF) was conducted on February 22-24, 2016. The facility is a 275 bed, parole violator facility, operated by the Management & Training Corporation (MTC) for the Texas Department of Criminal Justice (TDCJ).

It is the stated mission of the **West Texas Intermediate Sanctions Facility** “ We will be a leader by: Implementing our plans to achieve high performance standards and goals, Maintaining a foundation based on integrity, accountability and excellence, Providing long-term growth and stability while ensuring fiscal responsibility, Creating opportunity through a positive environment for personal growth and development, Empowering employees to implement innovative ideas for continuous improvement, and Building esteem and pride by celebrating our diversity and accomplishment

Preparation for the audit included a thorough review of all materials submitted by the facility to include the Pre-Audit Questionnaire. The documentation included both MTC and Texas Department of Criminal Justice policies and procedures, forms, training curriculum, organizational charts, and other PREA related information that the facility uses to implement the PREA standards. The documentation was reviewed by the auditor and any questions were clarified by sending questions to the facility PREA Compliance Manager. Responses were reviewed prior to the on-site visit.

The facility documentation also included staff and offender rosters. These rosters were used to select offender and staff names for the interview process.

For the interview process, the auditor randomly selected from each of the WTISF housing units ten offender names for interview. The facility had a total of 4 housing dorms and a Segregation Unit. The Segregation unit did not have any offenders at the time of the audit. Offender names were selected at random (ethnic groups were included) from each of the facility housing locations. The purpose of the offender interview is to ensure that the offenders understand their rights under PREA, how to report any incident, and validate that their PREA provisions are being provided by the facility.

The auditor also provided a list of other offender categories that must be interviewed. These included disabled offender, LGBTI offender, offender in segregation for protection, offender who reported sexual abuse, and an offender who disclosed being a victim during risk screening. The facility indicated that none of their offenders met the descriptions.

Additionally, a random sample of ten Correctional Officer staff were selected for interview. This process included all shifts, both male and female. The purpose of the CO interview was to verify whether the policies and procedures were actually being enforced and that the Officers understood their responsibilities under PREA. The questions included asking about their understanding of the zero tolerance policies, how to respond to PREA incidents, and a variety of other questions.

The auditor also provided a list of management and specialized staff that must be interviewed if they met the specific requirements as outlined in the PREA audit guidance.

On the first day of the audit, an entrance meeting was held where introductions were made. The following were in attendance:

- Susan Payne, Warden
- Richard Aynes, PREA Compliance Manager/Compliance Coordinator
- Carl Nink – Management Training Corporation Asst PREA Coordinator
- Jack Falconer – Auditor

In addition, five WTISF staff were present.

The auditor briefed the group on the audit process and responded to questions.

After the entrance meeting, a complete tour of the facility was made looking at all areas of the facility and conducting staff and offender interviews. The auditor toured the facility accompanied by the Warden, the MTC Coordinator, the Facility PREA Manager, and others. All areas were examined looking at the design of the facility, blind spots, camera locations, security operations that ensure offender safety, camera monitors, shower and

commode locations, privacy screens, and offender programming to include social services, medical, education and work programs. Other areas examined included all offender housing, administration, medical, food service, recreation, maintenance and the outside the secure perimeter facilities.

The auditor interviewed 38 staff and offenders during the PREA audit. Ten random offenders from the housing units, fourteen specialized staff, four management staff, and 10 random correctional officers were interviewed using the questions provided in the PREA audit documents.

DESCRIPTION OF FACILITY CHARACTERISTICS

The West Texas Intermediate Sanctions Facility (WTISF), located in Brownfield, Texas, was initially opened in 1992. The facility is a Low/Minimum security custody level, owned by the City of Brownfield, and is operated by the Management and Training Corporation (MTC) headquartered in Centerville, Utah. The Texas Department of Criminal Justice (TDCJ) contracts with MTC to operate the facility and is used to house TDCJ offenders who have violated the terms and conditions of parole.

The facility is located on a 10 acre site and has 3.5 acres within the secure perimeter fence. The physical plant is a 55,000 square feet, single story structure providing space for entry, control, administration, visitation, medical, food service, segregation, programs, religion, recreation, staff training, and offender housing. The building has smoke detectors and sprinklers in all areas for fire protection.

Design Capacity:	275
Actual Population (Feb, 2016)	271
Average Daily Population	266
Security/Custody level:	Low/Minimum-Parole violations
Gender	Adult Male
Age Range	18-55
Average length of Stay	34 days

Staffing:	
Administration	6
Support	5
Security	37
Programs	1
Total	49
Medical (UTMB)	4

Offender housing includes four dormitories and a Segregation unit of 6 beds. The dormitories have 2 pods with 66 beds, one pod of 64 beds, and one pod of 74 beds. All dormitories have adjacent shower and commode areas that have privacy partitions and walls.

The security perimeter is provided by a fence. Numerous cameras are provided to enhance the security operation. The facility central control monitors and controls all traffic moving into and out of the facility.

Program spaces are provided and indoor and outdoor recreation areas are also available adjacent to the housing areas.

Food is prepared in a central kitchen and is served in a dining hall. In the Segregation Unit, the food is served on trays.

The facility has a zero-tolerance policy regarding sexual abuse of any offender. The PREA information is provided to all offenders upon arrival at the facility. Posters and signs are available in all housing areas reminding them of how to report incidents of sexual abuse. This information is also included in the offender handbook.

All offenders at the facility have violated the conditions of their parole and have been recommitted to the Intermediate Sanctions Facility (ISF) specifically for continued treatment for rehabilitation and re-entry. At the end of a 30-180 day treatment period, the offenders are released to continue on a parole status or re-commitment to another TDCJ facility to serve out their sentence.

The facility has a variety of rehabilitative programs that are offered to the offender population. These include self help/social services programs, religion programs, recreation, and medical/mental. A much expanded program is being developed and will shortly be offered to the offender population. The expanded program includes;

Cognitive Intervention Program. This program combines the use of evidence base programming with MTC's best practices to address criminogenic needs of offenders while, at the same time, maintaining a safe and secure environment. Within this setting, MTC works with offenders to educate and develop skills through proven correctional

interventions to reduce thinking errors which typically challenge program efforts to effectively reduce recidivism.

Other offender programs include;

Typing Master Pro: This program is a self-paced keyboarding program that provides inmates with clerical skills. The focus of this program is on accuracy and speed. This program provides the necessary skills needed to complete job applications online and resume preparation.

Inside Out Dads: Is an evidence based program for incarcerated fathers that affords offenders an opportunity to successfully reconnect with their children and loved ones. This course helps offenders improve relationships and prepare themselves to be positive male role models for real navigation with their family. This program is based on the National Fatherhood Initiative.

AA: A 12 step program for recovering alcoholics and is an offender led weekly meeting.

Veteran Group: Is an offender led support group for veterans from all military branches who help each other with issues related to their time in the service. WTISF reached out to the community and was able to find a retired veteran who is willing to volunteer with this group and assist them in contacting outside agencies that specifically assist veterans.

Offender Safety Program: The program covers a variety of safety related topics including the Prison Rape Elimination Act (PREA). Inmates are trained in working with chemicals and personal protective equipment, workplace safety procedures as well as the effects of hot and cold temperatures in the work and recreation environments. A new safety topic is presented monthly to all offenders at the facility.

STD(Sexually Transmitted Disease) awareness: This a topic covered during PREA/Orientation and is also offered in the Programs curriculum to all offenders. This subject is discussed by medical personnel during Orientation as a way to improve understanding and remind offenders of the seriousness of STDs and educate them about how they can prevent the spread of communicable disease. Offender Peer Educators are available during PREA/Orientation to speak with incoming offenders

An Academic program is not offered by WTISF due to the transitory nature of this facility.

The Religious Program is staffed by volunteers from the community.

The Medical program, operated by the University of Texas-Medical Branch (UTMB), is under a separate contract with TDCJ. Staffing for the medical program includes 4 Health Care providers. The Medical Program is staffed 5 am to 9 pm, Monday thru Friday and 5 am to 5 pm, Saturday and Sunday. The staff also provide a 24/7 on-call service. Mental Health services are provided by a licensed Professional Counselor and by use of Tele-Medicine technology. Most of the offenders interviewed indicated the medical program met their needs. The clinic area is located to provide easy access to the offender population. There is no infirmary at the facility and a local hospital is used for that purpose.

Offenders incarcerated at the facility are afforded the opportunity to participate in work programs in most of the operational areas of the facility.

WTISF is accredited by the American Correctional Association.

The facility has a very clean and orderly appearance. The grounds are well manicured and the facility appears to be well maintained. The correctional security program appears to be appropriate for the low/minimum security classification. Correctional Officers provide the security supervision. The offenders interviewed indicated that they felt safe in the correctional environment provided by the WTISF.

SUMMARY OF AUDIT FINDINGS

The Pre-Audit Questionnaire provided by the facility indicated zero allegations of staff sexual abuse and zero allegations of offender sexual abuse and there were no administrative nor criminal investigations related to sexual abuse or harassment conducted at WTISF in the past 12 months.

The offenders interviewed indicated that they were aware of and understood the Agency's zero tolerance policy and what it meant for their protection. All received the information at intake and other PREA training and understood the multiple ways to report sexual abuse and harassment and how to protect themselves. The interviewed offenders were able to describe how to report, use of the hot line, and what they would do if they were abused. They indicated that they felt safe and there was an open communication line between themselves and the correctional officers.

The facility staff that were interviewed indicated that they were trained on PREA and what zero-tolerance actually means and how to enforce the PREA policies. They were very knowledgeable about their roles and responsibilities in the prevention, reporting, and response to sexual abuse and harassment of the offender population. They all carried the first responder cards and knew very well the steps they must follow as a first responder.

The auditor interviewed the SAFE/SANE nurse in charge of that program at the University Hospital in Lubbock, Texas to confirm the WTISF agreement and to verify that that service would be available if needed. In addition, the auditor interviewed a religious volunteer to verify that he had received the zero-tolerance and other training required by PREA.

In summary, after review of all documentation, the results of the interview process, the auditor determined that the West Texas Intermediate Sanctions Facility has made the requirements of PREA a very high priority by properly training their staff and offender populations on the key components of PREA. The Warden and her top management staff displayed a very high commitment to the PREA process.

It was clear to the auditor that West Texas ISF, Management Training Corporation, and Texas Department of Criminal Justice has made the compliance to PREA a very high priority. Their policies and practices are very good and address the requirements of PREA

Overall Final Compliance Report for West Texas Intermediate Sanctions Facility:

Number of standards exceeded:	0
Number of standards met:	41
Number of standards not met:	0
Number of standards not applicable:	2 (115.12 & 115.66)

Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The West Texas Intermediate Sanctions Facility has policies that:

- mandate a zero tolerance for sexual abuse and sexual harassment of their offender populations.
- present an approach to preventing, detecting and responding to sexual abuse/harassment issues
- include definitions of prohibited behavior.
- provide for sanctions of prohibited behavior.
- policies include strategies to reduce & prevent sexual abuse and harassment.

The facility PREA Compliance Manager indicated that the facility follows all components of this standard.

The agency (MTC) employs both a PREA Coordinator and an Assistant PREA Coordinator. The facility assigns a Major as the PREA Compliance Manager. All are shown on organizational charts provided in the documentation. The Coordinators report to top MTC management and the Manager reports to the facility Warden. In the interview process, The PREA Coordinator and PREA Compliance Manager indicated they have sufficient time to address the needs of PREA.

Policies, other evidence reviewed:

- WTISF Pre-Audit Questionnaire.
- MTC 903E.02, pg 1.
- TDCJ SPP Zero Tolerance statement.
- West Texas & MTC organizational charts, interviews, and memos.
- Interviews with PREA Coordinator & the PREA Compliance Manager confirm that the standard is met.

Standard 115.12 Contracting with other entities for the confinement of inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific

corrective actions taken by the facility.

Not applicable

The West Texas Intermediate Sanctions Facility (WTISF) does not contract with external entities for the confinement of offenders.

The facility is owned by the city of Brownfield, Texas, leased to TDCJ, and operated by the Management Training Corporation (MTC). The MTC and TDCJ contract does require full compliance with the PREA standards

The standards define Agency as a unit of a State, local, corporate, or non-profit authority with direct responsibility for the operation of any facility that confines inmates, detainees, or residents. Given this definition, MTC is the agency and does not have the authority to contract with other entities for the confinement of offenders or inmates.

A monitor is assigned to the facility by TDCJ.

Policies and other evidence reviewed

-WTISF Pre-Audit Questionnaire.

-MTC memo.

Standard 115.13 Supervision and monitoring

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has developed a staffing plan to safely meet the PREA and correctional needs. The facility indicated (by documentation and in the interview process) that their staffing plan has addressed all issues of providing a safe staffing level, filling all mandatory positions, and provides for the use of monitoring technology. Their contract with TDCJ requires that all security posts are always filled. All relevant factors provided for in the standard are considered by the facility. WTISF has an average daily population of 266 offenders and the staffing plan was predicated on 275 offenders.

This plan involves always filling a list of mandatory positions to meet the necessary staffing requirements when vacancies occur. The facility used overtime to meet a safe staffing mandate. The facility reported, with the use of overtime, no deviations from the custody staffing plan for the past 12 months. The Auditor examined the plan and direct contact correctional staff vacancy rates for a 12 month period (Jan 2015 thru Dec 2015). The correctional staff vacancy rate for this period averaged 7.4%. The facility staffing plan is predicated on a offender population of 275. On the last day of the audit, the facility reported 100% fill for all direct contact positions.

On August 1, 2015, the Warden reviewed the plan and determined that no changes were needed. The plan was also reviewed by the Agency PREA Coordinator.

Unannounced rounds designed to identify and deter staff sexual abuse and harassment are conducted and documented daily for all shifts by senior WTISF management staff. This was verified by documentation of the rounds conducted and in the interview process of the Major and the Captain.

Policies and other evidence reviewed:

-WTISF staffing plan.

-Vacancy reports

-WTISF Pre-Audit Questionnaire.

- MTC 903E.02, pg 6, 3 a-b-c.

-TDCJ SM 01.14 & AD 11.52

- Interviews with the Contract monitor, Warden, PCM, & PREA Coordinator confirm that the standard is met.

Standard 115.14 Youthful inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Not Applicable

Since no offender is under 18 years of age at WTISF, the standard does not apply to the facility.

Standard 115.15 Limits to cross-gender viewing and searches

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has policies that do not allow their correctional staff to conduct cross-gender strip or visual body cavity searches of offenders. The facility reported zero instances where these types of searches had occurred. These searches can only be done by medical personnel or by staff in an emergency(must be documented). The facility has a male offender population. These policies were confirmed by the Warden and the Correctional

Officers interviewed.

All showers and commodes/urnials have protective walls that allow offenders a level of privacy. Opposite gender staff are required to announce their presence when entering the offender housing units. This policy was confirmed by interviews of offenders and CO staff.

Policies are in place to prevent staff (other than medical) to examine an offender solely for the purpose of determining gender. The facility reported zero instances where these types of searches have occurred in the past 12 months.

The facility reported that 100% of the security staff has been trained in the correct procedure for these types of searches. This was verified by sampling of training plans, training files, and interviews of the CO staff. There were no transgender /intersex offenders to interview.

Policies and other evidence reviewed:

- MTC 903E.02, pg 7, 5.

-TDCJ Policy PO-07.23, PO 07.27 & AD 03.22, pg 2-4.

-Training Rosters, Search logs.

-West Texas interviews and memos.

-Interviews with Correctional Staff & Offenders confirm that the standard is met.

-WTISF Pre-audit questionnaire

Standard 115.16 Inmates with disabilities and inmates who are limited English proficient

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Facility policies require that all offenders with special needs have an equal opportunity to understand and receive the benefits of the WTISF efforts to prevent, detect, and respond to sexual abuse and harrassment. WTISF has developed a variety of ways to ensure offenders with disabilities or limited English are provided the opportunity to understand PREA. Orientation videos, pamphlets, booklets, offender handbooks, etc. are available in both English and Spanish.

Three certified staff interpreters are available to provide any needed service. TDCJ also provides for the use of LanguageLine Solutions, a video interpreting network. The facility also provides electronic signing equipment for any deaf offender. PREA posters are in offender housing units and the information is available in the offender handbook.

Per agreement with the TDCJ, certain types of disabled offenders are not sent to WTISF due to their limited medical hours. WTISF does, however, ensure that every offender has the ability to participate in or benefit from all aspects of the facilities efforts to prevent, detect, and respond to sexual abuse and sexual harassment. This was confirmed verbally and by memo by the Warden. The auditor, based on observation of process and interviews of staff, believe that the requirements of the standard are be met by WTISF.

The facility reported that there were zero cases where an inmate interpreter was used. Offender interpreters are prohibited in first responder situations or any investigations. The auditor requested that an interview be set up with any offender with a disability. The facility indicated that none were present at WTISF.

Policies and other evidence reviewed:

- MTC 903E.02, pg 8, 6.
- TDCJ AD 04.05
- Posters, offender handbooks, certificates.
- West Texas ISF interviews of Agency Head and random staff. There were no offenders with disabilities.
- WTISF Pre-audit questionnaire

Standard 115.17 Hiring and promotion decisions

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has an on-site HR position that manages the recruitment and hiring process. Both MTC and TDCJ policies require background checks to look at any issue of prior sexual misconduct. The background checks are requested by the Facility HR manager and completed by TDCJ. All contractors are screened by using the same process. The facility reported 56 (100%) new employees/applicants background checks were made and 3 (100%) contractor background checks were completed in the past 12 months. Documentation and files were reviewed by the auditor to confirm the process.

MTC policies also require a 5 year re-check of all employees and contractors. WTISF and the TDCJ does the check on a daily basis. The MTC policy does indicate that any employee/contractor misconduct or false reporting is subject to the possibility of termination of employment. The HR Manager also indicated that his office responds to any request for information from an institutional employer seeking information on a former employee.

Policies and other evidence reviewed:

- MTC 903E.02, pg 8, 7 & MTC 201.3, B,C & MTC SOP pg 1-4.
- TDCJ Background check form.
- WTISF Pre-audit questionnaire.
- West Texas ISF interviews with HR Manager and memos.

Standard 115.18 Upgrades to facilities and technologies

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MTC policy requires that any modification or expansion of existing facilities will consider the modifications impact upon the facilities ability to protect the offenders from sexual abuse. The MTC Management indicated that areas such as blind spots, sight lines, and other spaces not under constant visual supervision would be reviewed for the addition of cameras.

The facility is owned by the City of Brownfield, Texas and operated by MTC. The WTISF reported that all security cameras in the facility have been replaced and additional cameras will be replaced as needed.

On the tour, the auditor observed many cameras throughout the facility. The functionality and clarity were considered outstanding.

Policies and other evidence reviewed:

-WTISF Pre-audit questionnaire

- MTC 903E.02, pg 8.

- Interviews of the Agency Head and Warden, confirm that the standard is being met.

Standard 115.21 Evidence protocol and forensic medical examinations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Per MTC & TDCJ policy, the TDCJ Office of Inspector General (OIG) conducts all criminal and administrative investigations. In accordance with the MTC contract with TDCJ, any allegation involving sexual abuse or criminal activity requires that the OIG be notified immediately to assume control of the investigation. The WTISF staff will assist the OIG with administrative investigations. The OIG Investigator reported that all investigations will promptly be investigated and they use a uniform evidence protocol. In addition, MYC policy requires that all investigations follow the uniform evidence protocol. No administrative or criminal investigations investigations were required or completed in the past 12 months.

To provide all victims of sexual abuse access to forensic medical examinations, the facility has an MOU with

SAFE and SANE examiners using an outside health care provider(University Med Center). The facility reported that zero SAFE/SANE exams were required and zero medical exams were made in the past 12 months. WTISF policies all indicate that SAFE/SANE examinations are provided at no cost to the offender.

The auditor interviewed the SAFE/SANE service provider and verified that their service is available 24/7, 365 days per year. Victim advocates to provide offender support services are also under contract (Voice of Hope in Lubbock, Texas). The information on how to obtain this assistance is provided to the offender by the means of posters, training and the offender handbook. All offenders are issued handbooks and the posters are located in the housing locations.

Policies and other evidence reviewed:

- MTC 903E.02, pg 9.

-TDCJ AD 16.04, SPOM 05.01, Policy A12.1, & CMHC Policy E-31.1.

- Interviews of the random sample of staff, the SAFE/SANE provider, & the PCM confirm standard is met.

-WTISF Pre-audit questionnaire

Standard 115.22 Policies to ensure referrals of allegations for investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Per MTC & TDCJ policy, the TDCJ OIG has the legal authority to conduct all criminal and administrative investigations. The OIG officers are commissioned Texas peace officers. In accordance with the MTC contract with TDCJ, any allegation involving sexual abuse or criminal activity requires that the OIG be notified immediately to assume control of the investigation. The OIG is available on a 24/7 basis to assume control of the investigation. The facility Major and local law enforcement (if necessary), will maintain control of the incident until the OIG arrives. The Major will continue to assist the OIG with administrative investigations. All sexual abuse and sexual harassment incidents will be promptly be investigated and will be documented. This action is required by policy and by contract with the TDCJ.

During the past 12 month period, zero allegations of offender sexual abuse/harassment were received and zero criminal or administrative investigations were required.

This information was verified in the interview with the facility Major who would assist the OIG with any investigation at WTISF.

Agency (MTC) policy regarding allegations of sexual abuse/harassment investigations is published on mtctrains.com.

Policies and other evidence reviewed:

- MTC 903E.02, pg 9.

-TDCJ AD 16.20, SPPP & AD 16.04.

- Interviews of the Agency Head, the OIG investigator, the PREA Coordinator, and the WTISF Major.
- WTISF Pre-audit questionnaire.

Standard 115.31 Employee training

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The staff training provided by WTISF meets policy requirements of PREA, MTC & TDCJ. All points mandated in the standard are met. All employees, contractors and volunteers, are trained to meet the PREA standards. In the past 12 months, 56 (100%) staff were trained. The facility has a comprehensive training program for PREA and other correctional topics developed by TDCJ which includes pre-service, annual in-service training and is tailored to meet the offender gender needs of the facility. Refresher information is available in the employee handbook and in shift briefings.

The training documentation includes a signature roster that indicates staff presence when the training was presented. Attendance rosters and lesson plans were reviewed by the auditor

The interview process with the random staff and the Training Administrator documented that the employees understood the materials presented. The auditor was impressed with the staff responses in the interview process. They understand the PREA requirement very well.

Policies and other evidence reviewed:

- MTC 903E.02, pg 10.
- TDCJ AD 16.20, A-B, SPPP VI-BC 1 & AD 16.04 A-B , Pre-service and In-service curriculum.
- WTISF Pre-audit questionnaire.
- First responder cards.
- Interviews of a random sample of staff, Training Manager & review of training records.

Standard 115.32 Volunteer and contractor training

- Exceeds Standard (substantially exceeds requirement of standard)

- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

All volunteers and contractors who have contact with offenders at WTISF have been trained to understand the requirements of PREA and the zero tolerance policy.

100% of the 15 volunteers and one contractor were trained by WTISF about PREA and correctional requirements during the last 12 months. The training is based on the service level and offender contact they provide. This was verified by examination of training records and the signatures that documented that they understood the training presented.

Interviews with the SAFE/SANE provider and the Volunteer verified that they understood the PREA requirements associated with being a contractor and a volunteer. The policies found in MTC 903E.02, the TDCJ Volunteer Handbook and the Training Guide support compliance with the standard.

Policies and other evidence reviewed:

- MTC 903E.02, pg 10.
- TDCJ Volunteer handbook & Volunteer Training Plan.
- Volunteer sign-in roster & application forms.
- WTISF Pre-audit questionnaire.
- Interviews with Volunteer & contractor.

Standard 115.33 Inmate education

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

By policy of both MTC & TDCJ, all offenders are provided information in the intake process about the zero-tolerance policy for sexual abuse or harassment. In the past 12 months (on their first day of arrival), 1867 (100%) of the offenders received information on the principles of PREA. The offenders are provided this information verbally and provided with brochures and the offender handbook that contains the PREA information. The process was observed by the auditor.

In addition, within their first 30 days, all offenders receive comprehensive education on their rights to be free from any sexual abuse or harassment. The facility reported 1867(100%) received this education program. This was verified by examination of attendance records and in the interview process.

Provisions are made to assist those offenders with disabilities such as limited English proficiency, deaf, visually impaired, otherwise disabled, and limited reading skills or those not proficient in English to ensure their understanding of PREA. Orientation videos, posters, signing capability, offender handbooks, etc. are readily available to the population. The facility provides to the offender population, three certified staff interpreters and a telephonic interpreter service if needed.

The facility maintains signature documentation that the offenders received the training. This documentation was reviewed by the auditor.

The offenders interviews indicated that they understood their rights under PREA and the interview with the intake staff verified that the information is presented and available to all offenders.

Policies and other evidence reviewed:

- MTC 903E.02, pg 10.

- Offender assessment forms, handbooks, & orientation schedule.
- Training rosters.
- WTISF Pre-audit questionnaire.
- Posters, brochures, lesson plans.
- The interviews Intake staff & random sample of offenders.

Standard 115.34 Specialized training: Investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Per MTC & TDCJ policy, the TDCJ OIG has the legal authority to conducts all criminal and administrative investigations. The OIG officers are commissioned Texas peace officers. In accordance with the MTC contract with TDCJ, any allegation involving sexual abuse or criminal activity requires that the OIG be notified

immediately to assume control of the investigation. The OIG is available on a 24/7 basis to assume control of the investigation. The facility Major and local law enforcement (if necessary), will maintain control of the incident until the OIG arrives. The Major will continue to assist the OIG with administrative investigations. All sexual abuse and sexual harassment incidents will be immediately investigated and will be documented. This action is required by policy and by contract with the TDC.

Three WTISF staff have received certificates indicating that they are PREA investigation trained. The training included interviewing sexual abuse victims, use of Garrity and Miranda, & evidence collecting. The TDCJ OIG investigator that was interviewed also indicated that he had received the PREA training which was also required by TDCJ policy. WTISF maintains certificates that the three WTISF staff are PREA Investigation trained.

Policies and other evidence reviewed:

- MTC 903E.02, pg 11.
- TDCJ BP 01.07.
- WTISF Pre-audit questionnaire.
- Investigative staff training certificates.
- The interviews of OIG and WTISF investigators.

Standard 115.35 Specialized training: Medical and mental health care

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF policies require that all five of the medical and mental health staff are provided the same PREA training as all other facility staff.

Documentation and the interviews with facility and medical staff verified that 100% of the Medical/ Mental Health services staff have been trained in the requirements of PREA. The documentation is maintained by WTISF and was provided to the auditor.

Forensic examinations are not conducted by the UTMB medical staff. These exams, if needed, are provided by a certified local health care organization which is available 24/7. That organization is the outside health care provider(University Med Center). The interview with the SAFE/SANE certified provider indicated that they perform that service for the Lubbock, Texas community and they will provide the service to WTISF on a 24/7 basis.

The facility reported that zero SAFE/SANE exams were required and zero medical exams were made in the past 12 months. WTISF policies indicate that SAFE/SANE examinations are provided at no cost to the offender.

Policies and other evidence reviewed:

- MTC 903E.02, pg 11.
- TDCJ E-34.4 & TDCJ Memo 19 June, 2014.

Standard 115.41 Screening for risk of victimization and abusiveness

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The WTISF has policies that require that all offenders be screening for risk of sexual abuse victimization and sexual abusiveness towards other offenders is required. This screening is accomplished within the first 24 hours of arrival.

The Pre-Audit questionnaire indicated that 1867 offenders (100 %) were screened for the risk of sexual abuse victimization or sexual abuse towards other offenders.

The facility uses the TDCJ Screening for Risk of Victimization and Abusiveness document which appropriately meets the ten points required by the standard. The screening document does ask questions to determine if any offender might have any prior history as a sexual abuser. A total of 18 questions are asked and the responses scored. Based on the score and responses, a decision is made to properly house the offender.

Intake staff conduct the screening and the information is secured. The screening process and completed forms were reviewed by the auditor

The high risk offenders and other offenders are reassessed for the risk of sexual victimization or being sexually abusive within 30 days. The facility reported 1867 (100%) reassessments occurred in the past 12 months. Additionally, the offender is reassessed when warranted due to any new information. A sample record of the reassessment form was reviewed.

WTISF policies prohibit discipline of any offender for refusing to answering questions in the screening process. The facility has applied appropriate controls on all information received to avoid the offender being exploited by

staff or other offenders.

Policies and other evidence reviewed:

- MTC 903E.02, pg 11-12.

-TDCJ SPPOM 03.01, pg 1-4.

-WTISF Pre-audit questionnaire.

- The interviews of risk screening staff, random offenders, PREA Coordinator, & PREA Compliance Manager.

Standard 115.42 Use of screening information

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The information obtained in the offender screening process is used to make individualized determination to ensure their safety and make appropriate housing, work, and program assignments. The placement decisions are made by a facility classification committee.

In making assignment decisions for transgender or intersex offenders, the decisions are made on a case-by-case basis. These decisions are required by policy to be reassessed twice each year to review any new information or threats. These offenders view of their safety must be given serious consideration.

Any transgender or intersex offender is allowed to shower separately from other offenders. LBGTI offenders are not placed in dedicated units. The facility reported that no transgender or intersex inmate has been received by WTISF in the past 12 months. If this would occur, the offenders would be housed in C dorm to have access to private showers.

TDCJ policy 4.00 indicates that no offender shall be assigned to any housing area solely on the basis of race, color, ethnic origin, or sexual orientation. WTISF follows this policy.

Policies and other evidence reviewed:

- MTC 903E.02, pg 12.

-The interviews of risk screening staff, PREA Coordinator, & PREA Compliance Manager.

Standard 115.43 Protective custody

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The MTC policies govern the use of segregation housing. These policies include looking at all available alternatives for victims of sexual abuse.

The WTISF is not allowed by contract with TDCJ to house offenders in protective segregation. If that was needed, the facility would place the offender in an “In-transit” status and then transfer within 30 days.

The facility reported zero offenders were involuntary held in segregation in the past 12 months for the purpose of protecting a possible sexual abuse victim. Policies require a review every 30 days for any offender in segregation.

Policies and other evidence reviewed:

- MTC 903E.02, pg 12.
- TDCJ UCP 1.0 & ED 02.10.
- WTISF Pre-audit questionnaire.
- The interview of the Warden. There were no Seg offenders or staff that supervise segregation.

Standard 115.51 Inmate reporting

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has several ways that an offender can report sexual abuse and harassment, retaliation, or staff neglect. Offenders receive information at intake on how to report any issue. They can report an incident to any staff person, do so verbally, write a grievance or report, write letters, use the offender hotline, notify a third person or the TDCJ PREA Ombudsman. Phones are available in all housing units and have a toll free hot line available for any PREA issue. Interviews with the offenders clearly demonstrate that they are knowledgeable about

PREA and the various ways they can report any incident.

Staff are required to document any and all offender reports and are informed of this requirement by required training and employee handbooks.

No offenders are held for civil immigration purposes.

WTISF also provides to the staff a method to privately report sexual abuse/harassment of inmates. This can be done in writing, Form I-60, verbal, or by a grievance. The staff are provided this information in training, staff handbooks, etc.

The offender and staff interviews confirm that the process is well understood.

The facility had no reports of offender or staff sexual abuse.

Policies and other evidence reviewed:

- MTC 903E.02, pg 12-13.

-TDCJ ED 02.10 & AD 16.20.

-WTISF Pre-audit questionnaire.

-The interview of random offenders, random staff & PREA Comp Mgr.

Standard 115.52 Exhaustion of administrative remedies

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has a formalized offender grievance policy. The process allows the offender to file a formal written complaint/grievance about sexual abuse or any correctional issue. The complaint can be filed with any staff member and will be directed to the Warden for response. The offender handbook outlines the process required. By policy, the offender is not required to use an informal grievance process nor refer any grievance to the staff member who is the subject of the complaint. By policy, WTISF will not refer the grievance to the staff member who is the subject of the complaint. There is no time limit of the filing of a sexual abuse or sexual harassment grievance.

WTISF permits a third party to assist offenders to file any grievance. TDCJ policy also allows any offender to file immediately, a sexual abuse/harrassment grievance to the Texas Ombudsman, the unit administration and the OIG. Emergency grievances are also permitted in reporting a grievance concerning sexual abuse/harassment. If received, the grievance is immediately addressed.

WTISF policy requires that a response to an emergency grievance must be completed within 48 hours and a final decision must be made within 5 days. In a memo from the Warden, the facility does not compute the time consumed by offenders in preparing any administrative appeal.

Policy does limit any sanctions to an offender who filed the grievance in bad faith.

In the past 12 months, there were zero grievances filed concerning sexual abuse or harassment. The process is well defined in the offender handbook and would be used by the offender if necessary.

Policies and other evidence reviewed:

- MTC 903E.02, pg 12-13.
- TDCJ AD 03.82.
- WTISF Pre-audit questionnaire.
- Offender handbook.
- There were no offenders who reported a sexual abuse to interview.

Standard 115.53 Inmate access to outside confidential support services

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has had no reported allegations of sexual abuse in the past 12 months.

The facility provides to the offender confidential access to outside victim advocates by providing the name of the organization, toll free telephone number, posters, and the information is in the offender handbook. The victim advocate service includes in-person support services to the victim through the forensic medical exam process as well as the investigatory interview process and at no charge to the offender. This information is provided to the offender on bulletin boards and is in the offender handbook.

WTISF also informs the offender of the extent that communications will be monitored.

The facility maintains MOU’s with Voice of Hope-Lubbock to provide advocate services and informs the offender of limits to confidentiality. These agreements were provided in the Pre-Audit questionnaire.

Policies and other evidence reviewed:

- MTC 903E.02, pg 14.
- TDCJ SPPP, pg 13.
- WTISF Pre-audit questionnaire.
- Offender handbook.

-Voice of Hope MOU.

-Random offender interview & there were no offenders who reported a sexual abuse to interview.

Standard 115.54 Third-party reporting

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF grievance policy allows third parties to assist the offender in filing a PREA related grievance.

MTC has a website (mtctrains.com) that provides the opportunity for third party reporting of sexual violence. The website also provides the reporting policies regarding any sexual violence. TDCJ provides third party reporting to the TDCJ OIG or the PREA Ombudsman.

Policies and other evidence reviewed:

- MTC 903E.02, pg 14.

-TDCJ ED-02.10, pg 1-5.

-WTISF Pre-audit questionnaire.

Interviews with Warden, random staff, medical/mental health staff, & PREA Coordinator.

Standard 115.61 Staff and agency reporting duties

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has policies that require all staff to immediately report any knowledge, suspicion, or any information received of an incident of sexual abuse/harassment. Policies also address the requirement of all staff to immediately report any retaliation against offender or staff who reported an incident of sexual abuse or

harassment. Senior management staff has been assigned the task to monitor possible retaliation and the monitoring must be recorded. The policies also address the need for all staff to maintain confidentiality. The staff are required to maintain confidentiality of all reports except for those in the need to know.

Medical and mental staff report all sexual abuse allegations and they inform the offender of their duty to report.

No offender is under the age of 18 at WTISF.

In accordance with the MTC contract with TDCJ, any allegation involving sexual abuse or criminal activity requires that the OIG be notified immediately to assume control of the investigation.

Policies and other evidence reviewed:

- MTC 903E.02, pg 14-15.

-TDCJ SPPP, pg 21-22.

-WTISF Pre-audit questionnaire.

-Interviews with Warden, random staff, medical/mental health staff, & PREA Coordinator.

These policies are found in MTC 903E.02, 203.2 & TDCJ SPPP.

Standard 115.62 Agency protection duties

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF policies require all staff to immediately take steps to protect any offender who is the subject of imminent sexual abuse. These actions include separate the offenders, protect the scene of the incident, prevent victim and abuser from destroying any evidence, notify supervisor, refer offenders to medical, etc.

At WTISF, there has been zero incidents of this action where first responder actions were required in the past 12 months. The auditor was unable to measure the response process documentation. All staff were very familiar with the procedure and would take action if required.

Policies and other evidence reviewed:

- MTC 903E.02, pg 15.

-TDCJ SPPOM 05.01 & 05.03.

-WTISF Pre-audit questionnaire.

-Interviews with Agency Head designee, Warden & random staff.

Standard 115.63 Reporting to other confinement facilities

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has policies that require notification of another facility when they learn of a offender that had been sexually abused at that other facility. This notification is done within the 72 hour time frame. Documentation is required that the report will be investigated and properly acted upon. The PREA Manager is required to notify both the MTC and TDCJ PREA Coordinator that the abuse information was received. Interviews with the Warden and Agency Head designee ensure that all allegations would be investigated in a prompt and professional manner.

In the past 12 months, the facility reported zero allegations of sexual abuse that an offender received at another facility and no documentation was available to review.

Policies and other evidence reviewed:

- MTC 903E.02, pg 16.
- TDCJ SPPOM 04.01, 05.03 & SPPP.
- WTISF Pre-audit questionnaire.
- Interviews with Agency Head designee, Warden.

Standard 115.64 Staff first responder duties

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In the past 12 months, WTISF reported zero allegations that an offender was sexually abused. There were no victims nor first responders to interview. The CO staff interviewed carried their first responder cards which listed the steps to be taken in response to any sexual abuse or harassment incident.

The WTISF policies address the 4 first-responder duties required in the PREA standard. This policies were verified by the responses from the staff being questioned in the interview process. All WTISF staff are provided training on the 4 staff responder actions required in a report of sexual abuse. This would include all security and non-security staff that might be a first responder. All security staff interviewed were well informed on the actions required in the event of a sexual abuse/harassment report from an offender.

Policies also address the actions required if the responder is not a security staff member. The non-security staff person would ensure that the alleged victim not take any action that might destroy physical evidence and then notify security staff.

Policies and other evidence reviewed:

Standard 115.65 Coordinated response

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The WTISF has developed a facility institutional plan for a coordinated response to any incident of sexual abuse. This plan follows very closely the TDCJ requirements found in TDCJ SPOM 05.01. The plan address the coordination of first responder staff, Major (PREA Compliance Manager), emergency action center, medical and mental health staff, OIG investigators, the victim advocate/offender victim representative (OVR), and the facility management staff. The plan meets the requirements of both MTC and PREA.

Policies and other evidence reviewed:

Standard 115.66 Preservation of ability to protect inmates from contact with abusers

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Not applicable.

The WTISF employees do not participate in collective bargaining.

Policies and other evidence reviewed:

-Memo from Warden about no collective bargaining authority.

Standard 115.67 Agency protection against retaliation

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

In the past 12 months, WTISF reported zero allegations that an offender was sexually abused. WTISF has policies that protect offenders and staff who report sexual abuse/harassment from retaliation.

The WTISF Warden and PREA Manager are designated by TDCJ policy to monitor possible retaliation and all monitoring must be recorded. The policies require the facility to employ multiple protection measures such as transfers, housing changes, etc, to protect both the offender and staff from retaliation.

Any monitoring required will be conducted for a minimum of 90 days or longer if needed. The policies also

require periodic status checks all designed to protect an individual from retaliation.

Policies and other evidence reviewed:

- MTC 903E.02, pg 16 & 202.2 pg 1.

-TDCJ SPPOM 05.08, pg 1-4, & SPPP pg 23-24.

Standard 115.68 Post-allegation protective custody

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has policies in place that govern the use of involuntary segregation. The facility has 4 open bay dormitories and a six bed segregation unit. The facility reported that they are not authorized by TDCJ to use any segregation space for protective custody. The facility reported that no offenders reported sexual abuse and none were held in involuntary segregation in the past 12 months. In the event of an incident of sexual abuse, facility policy requires that the offender victim would be held in an "In-transit" unit during the investigation.

Policies also dictate if an involuntary segregated assignment is made, the facility affords each offender a review every 30 days and the offender programs would be continued to the extent possible. This was verified in the interview process.

Policies and other evidence reviewed:

-Memo from Warden.

-WTISF Pre-audit questionnaire.

-Interviews with Warden. There were no offenders nor segregation staff to interview.

- MTC 903E.02 pg 16.

Standard 115.71 Criminal and administrative agency investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the

relevant review period)

- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Per MTC & TDCJ policy, the TDCJ Office of Inspector General (OIG) will conduct all criminal and administrative investigations. In accordance with the MTC contract with TDCJ, any allegation involving sexual abuse or criminal activity requires that the OIG be notified immediately to assume control of the investigation.

The WTISF staff will assist the OIG with administrative investigations. The OIG Investigator that was interviewed reported that all investigations will be promptly, thoroughly, and objectively investigated. In addition, MTC policy requires that all investigation follow the uniform evidence protocol.

Three WTISF staff including the Major who is the PREA Compliance Manager, have received "Investigating Sexual Abuse in a Confinement Setting" training. The OIG Investigator also indicated he had received the same training.

The WTISF Major & the OIG interviewed were professional and very knowledgeable. They indicated the facility & OIG investigative process was very thorough by collecting all evidence including DNA, interviewing witnesses, perpetrators, victims, and review any prior reports of sexual abuse by the suspected perpetrator, etc. The OIG Investigator indicated all key components of 115.71 would be addressed. The departure of the staff or offender abuser will not be a basis for the termination of any investigation.

For administrative investigations, the OIG and the Major work together to determine if staff actions or failures to act contributed to the abuse and to gather information needed to make reports such as physical and testimonial evidence.

Reports are documented and cases are referred for prosecution if necessary. Polygraph tests for PREA cases are not authorized.

The facility reported zero cases of substantiated criminal allegations since 20 August, 2012. Written reports would be developed and retained on a permanent basis per TDCJ policy. Since there have been no investigations at WTISF, there was no documentation to review.

Policies and other evidence reviewed:

- MTC 903E.02, pg 16.
- TDCJ SPPOM 05.01, AD-16.20, BP-01.07, SPPP pg 27-30, & AD-16.03.
- WTISF Pre-audit questionnaire.
- Training certificates.
- Interviews with OIG and investigative staff, Warden, PREA Coordinator, & PCM. No Offenders.

Standard 115.72 Evidentiary standard for administrative investigations

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The MTC & TDCJ policy indicated that no standard higher than the preponderance of evidence shall be imposed in determining if allegations of sexual abuse or harassment are substantiated. Interviews with investigative staff confirm compliance with this standard.

Policies and other evidence reviewed:

-MTC 903E.02 & 16 & TDCJ SPPP pg 28.

-WTISF Pre-audit questionnaire.

-Interviews with OIG and investigative staff.

Standard 115.73 Reporting to inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Per WTISF policies, any offender who makes an allegation of sexual abuse or harassment will be informed in writing as to whether the outcome of the allegation was substantiated, unsubstantiated, or unfounded following the investigation. In the past 12 months, zero allegations were recorded by WTISF, no offenders were required to be informed, and the auditor was unable to review any notification documents.

The Staff interviewed assured that any information on any investigation would be obtained and the policy would be followed. There were no complaints directed towards staff. Should there be a complaint against staff, the offender would be advised as to staff relocation, no longer employed, whether staff member has been indicted or convicted.

Policies and other evidence reviewed:

-MTC 903E.02 pg 17.

-TDCJ SPPOM 05.10, pg 1-5.

-WTISF Pre-audit questionnaire.

-Interviews with Warden & investigative staff. No offenders who reported a sexual abuse.

Standard 115.76 Disciplinary sanctions for staff

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has disciplinary sanctions for staff. The policy requires that the staff be subject to disciplinary action up to and including termination of employment for violations of sexual abuse, harassment, or sexual misconduct. Any violation considered criminal will be reported to law enforcement.

The facility reported zero cases of staff violating sexual abuse or harassment policies in the last 12 months and none were terminated or resigned for violating policies on sexual abuse/harassment. There was no disciplinary documentation to review.

Policies and other evidence reviewed:

-MTC 903E.02 pg 17, 203.1 pg 1-4.

-TDCJ SPPP pg 38-39.

-WTISF Pre-audit questionnaire.

Standard 115.77 Corrective action for contractors and volunteers

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has policies that require disciplinary sanctions for volunteers and contractors up to and including termination of the contract for violating sexual abuse/harassment policies. The facility reported zero cases of volunteers/contractors terminated for violating policies on sexual abuse/harassment. Interviews with the Warden confirm that the WTISF practice conforms to the standard. There was no disciplinary documentation to review.

Policies and other evidence reviewed:

-MTC 903E.02 pg 17-18.

-TDCJ SPPP pg 39.

-WTISF Pre-audit questionnaire.

-Interviews with Warden.

Standard 115.78 Disciplinary sanctions for inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has policies that provide sanctions for offenders engaged in sexual abuse of another offender. These sanctions are applied only after a formal disciplinary process for any administrative or criminal finding of offender-on-offender sexual abuse.

The facility reported zero cases of administrative or criminal findings of offender-on-offender sexual abuse in the past 12 months.

Sanctions are proportionate with the type of abuse and similar to sanctions imposed on other offenders with similar histories. Consideration is given to the offender's mental status in final determinations. Treatment is also offered to those found guilty. WTISF has policies that do not permit consensual sex between offenders. Policies state that offenders are disciplined for sexual contact with staff only upon finding that the staff member did not consent to such contact.

Offenders would be removed from the program if they committed a PREA related sexual abuse/harassment incident. Since there were no offenders disciplined for PREA related conduct, none were interviewed, and no documentation was reviewed.

Policies and other evidence reviewed:

-MTC 903E.02 pg 18.

-TDCJ SPPP pg 30-31.

-WTISF Pre-audit questionnaire.

-Interviews with Warden and Medical/Mental Health.

Policies are MTC 903E.02 pg 1 & 18 & TDCJ SPPP & Disiplinary Code.

Standard 115.81 Medical and mental health screenings; history of sexual abuse

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MTC and TDCJ policies require that all offenders (100%) who disclosed prior sexual victimization during initial screening be offered a follow-up meeting with medical or mental health. The meeting is required within 14 days of the initial screening.

The same policy also applies to offenders who perpetrated sexual abuse. Documentation is required to be maintained for all meetings. Information found in the follow-up meeting is strictly limited to medical, mental health, security, and management staff. In the interview of medical staff, they indicated that informed consent is always obtained, a follow-up meeting scheduled if needed, and any information received is limited to medical/mental or to those within facility management on a need-to-know basis.

The facility reported that there were no screening reports from an offender who experienced prior sexual victimization in the past 12 months. Since there were no offenders who disclosed prior sexual victimization, none were interviewed, and no documentation was reviewed.

Policies and other evidence reviewed:

- MTC 903E.02 pg 18-19.
- CMHC H-61.1, pg 1-6.
- WTISF Pre-audit questionnaire.
- Interviews with Risk Screening staff & Medical/Mental Health staff.

Standard 115.82 Access to emergency medical and mental health services

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance

determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The WTISF medical program is staffed 16 hours per day, 5 days per week and 10 hours per day on the weekend. The medical service staff are on-call for any after hours service. Any offender who reports to be sexual abused has unimpeded access to WTISF medical treatment or the local hospital for emergency care. Security first responders are trained to protect any offender victim and make contact with medical.

The nature and scope of the treatment is determined by the Medical/MH staff according to their professional judgement. The offender is offered timely information and access to emergency treatment for any sexually transmitted disease. All treatment services would be documented and at no cost to the offender.

At WTISF, the community standard medical treatment includes proper medical care, treatment for sexual transmitted disease, and at no cost to the offender. The Medical staff interviewed verified that these policies and treatment services will be implemented if needed.

Policies and other evidence reviewed:

- MTC 903E.02 pg 19.
- CMHC H-57.1, pg 1-3.
- TDCJ SPPP pg 13.
- WTISF Pre-audit questionnaire.
- MOU letter from Forensic Nurse Staffing of West Texas.
- Interviews with Medical/Mental Health staff. There were no offenders who reported a sexual abuse.

Standard 115.83 Ongoing medical and mental health care for sexual abuse victims and abusers

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF has had no victims of sexual abuse in the past 12 months. The auditor was not able to interview any offender victim or review any documentation of practice. According to policy, the facility would provide medical

and mental health evaluation and treatment to all offenders who have been victimized. The policy requires offender victims to receive timely, unimpeded access to emergency medical treatment, and crisis intervention services. All victims would be transported to the University Hospital for SAFE/SANE services. If required, advocacy services are available from Voice of Hope, Lubbock, Texas. Follow up services are provided to any offender victim to include referrals to other TDCJ facilities or to the community.

WTISF is an all male facility. The medical services are reported to be consistent with the community standard for health care. The offenders are offered medically appropriate tests for sexually transmitted disease. All treatment services are at no cost to the offender.

WTISF policy also requires that offender abusers be offered mental health evaluations and treatment within 60 days of learning of abuse history.

The Medical staff interviewed verified that these policies were being implemented. There were no incidents and no documentation to review.

Policies and other evidence reviewed:

-MTC 903E.02 pg 19.

-CMHC H-57.1, pg 1-3.

-TDCJ SPPP pg 13-14.

-WTISF Pre-audit questionnaire.

-Interviews with Medical/Mental Health staff. There were no offenders who reported a sexual abuse.

Standard 115.86 Sexual abuse incident reviews

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The facility policies require that all incidents of sexual abuse and sexual harassment are thoroughly reviewed by the WTISF incident review team. This team includes the Warden, PREA Compliance Manager, the facility Captain, the TDCJ Contract Monitor, the Assistant PCM and a representative from medical. The Team's administrative review of all incidents uses a Offender Protection Investigation Form, required by TDCJ Safe Prisons PREA Plan. This nine page form requires the incident review team to review and make recommendations to all the requirements shown in standard 115.86 (d).

The team is also required to review and make recommendations for improvements within 30 days of the incident. The team's recommendation shall be implemented by the facility or state reasons for not doing.

incidents to review.

In the interview process, the staff indicated that any incident would be fully reviewed and acted upon according to policy.

Policies and other evidence reviewed:

-Interviews with Warden, PREA Compliance Manager, & member of incident review team.

Standard 115.87 Data collection

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

WTISF collects and provides to MTC and TDCJ incident based sexual abuse data annually. Both MTC and TDCJ collects and compiles data from all of their facilities on an annual basis.

The facility indicated that their data complies with SSV reporting regarding content and has provided the data to DOJ.

Both agencies aggregate all incident based data to include reports, investigation files, and sexual abuse incident reviews. The TDCJ also include data collection from every private facility under contract. MTC and TDCJ provide reports all data annually to DOJ.

The MTC/WTISF report for 2015 was reviewed. There were zero instances of PREA incidents for the 2015 reporting period.

Standard 115.88 Data review for corrective action

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

MTC & TDCJ require the collection of sexual abuse data from all facilities and aggregates into an annual report. The MTC report is available on the web at www.mtctrains.com. The report is approved by the Senior Vice President of Corrections at Management and Training Corporation. The TDCJ report is available on both the TDCJ and the PREA Ombudsman web site. It is approved by the Executive Director.

Both compare the data for the current year with prior years and make assessments as to improvement progress. The process require identification of the problem, take corrective action, and preparing annual reports.

The PREA reports provided by the facility were reviewed by the auditor. The MTC/WTISF report for 2015 was reviewed. There were zero instances of PREA incidents for the 2015 reporting period. The TDCJ report for Calendar Year 2014 was also reviewed by the auditor. Both reports are considered to very through and meet the requirements of the standard.

Policies and other evidence reviewed:

-Interviews with Agency Head designee, PREA Coordinator, PREA Compliance Coordinator.

Standard 115.89 Data storage, publication, and destruction

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Both MTC and TDCJ require all of their correctional facilities to securely retain incident-based data dealing with all PREA issues. The aggregated data is available to the public on mtctrains website and on the website of TDCJ & the Texas PREA Ombudsman. Policies require that any personal identifiers be redacted before publishing. MTC requires that all data be retained for at least 10 years and the TDCJ requires the data to be retained on a permanent basis.

- Interviews with PREA Coordinator.

AUDITOR CERTIFICATION

I certify that:

- The contents of this report are accurate to the best of my knowledge.
- No conflict of interest exists with respect to my ability to conduct an audit of the agency under review, and
- I have not included in the final report any personally identifiable information (PII) about any inmate or staff member, except where the names of administrative personnel are specifically

requested in the report template.
