Treatment programs overview
Management & Training Corporation (MTC) provides a variety of treatment programs at 19 correctional facilities operated by the Texas Department of Criminal Justice (TDCJ) and MTC. MTC’s goal, in partnership with TDCJ, is to prepare incarcerated individuals to succeed in society.

The majority of incarcerated men and women will eventually be released from prison making it incumbent on corrections agencies to provide effective treatment and programming to help rehabilitate the men and women in our care—thus reducing recidivism, improving lives, and making communities safer.
