Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, and observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

Methodology:

The PREA audit of the North Central Correctional Complex (NCCC) "The Facility" operates under the parent company of Management & Training Corporation (MTC), "The Agency". MTC operates the facility for the Ohio Department of Rehabilitation and Correction (ODRC). North Central Correctional Complex PREA audit was conducted July 16-18, 2018. The auditor arrival date was July 15, 2018.

Pre-Audit:

During the Pre-Audit period the facility received instructions to Post the Required PREA Audit Notice of the upcoming audit prior to the audit for confidential communications. As of July 14, 2018, there were no communications from inmates and staff. The Pre-Audit Questionnaire was completed and sent to the auditor as required.

The Auditor completed a documentation review using the Pre-Audit Questionnaire, internet search, policies and procedures review, and additional documentation provided on the flash drive, to include both the Agency and the Facility policy and procedures, Agency Mission Statement, Daily population report, schematic/layout for the facility and the last Final PREA Audit Report. The PREA Compliance Manager revised the PREA Audit: Pre-Audit Questionnaire to reflect accuracy of the report. The results of the documentation review were shared with the facility prior to and at the site visit. Phone conversations were conducted, and emails exchanged occurred with the facility.

Inmates reported they are never naked in full view of staff.

Policy and procedures require staff of the opposite gender to announce their presence when entering an inmate housing unit.

indicated that onsite interpreters are provided for Spanish speaking inmates. Outside interpreting services are available to the inmate population as dictated by policy.

(C) The facility does not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties or the investigation of the inmate's allegations. Interviewed staff indicated that they will document the limited circumstances in individual cases where inmate interpreters, readers, or other types of inmate assistants are used.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

The facility uses the ODRC Background Investigation Checks that included the following:

- o Driver License/State ID
- o MRDD Abuse Registry
- o DOTS Portal – Inmate Visiting List
- o Fingerprints
- o High School/GED
- o Personal References

MTC also has a background Investigation Checks system that includes the following:

 - Civil Records
 - Consumer Reports (Information obtained from a third party whose business is collection of such data)
 - Fingerprinted

In the past 12 months, the number of persons hired who may have contact with inmates who have had criminal background record checks was 272.

(D) Policies and staff interviewed stated that the facility requires that a criminal background record check be completed before enlisting the services of any contractor who may have contact with inmates

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- In the past 12 months, the number of contracts for service where criminal background record checks were conducted on all staff covered in the contract that might have contact with inmates was 11.

(E) MTC requires NCCC to conduct criminal background records checks every five years of current employees and contractors who have contact with inmates according to staff interviews.

(F) The facility staff asked applicants and employees who may have contact with inmates directly about previous misconduct; they use a form to document. The facility also imposes upon employees a continuing affirmative duty to disclose any misconduct related to PREA.

(G) MTC policy prohibits staff from material omissions and the provision of materially false information. This may result in grounds for termination. MTC has an Offender Data System (ODS) that tracks and generated automated emails.

MTC Offender Data System (ODS) Generated Automated Email: Email C – from ODS notifying the facility HR Manager that a determination has been made on a PREA investigation and the specific action which is required.

- a. Follow standards and policy related to disciplinary sanctions for staff as detailed below (115.76).

(H) Interviewed HR staff confirmed that the facility will provide information on employment hired and released dates and other basic information; however, they are prohibited for giving detail information on employee substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer who may request this information.

Interview Results:

- A review of the staff files and interview with the HR staff confirms that background clearances are placed in the employee files.

- Interview with a staff member for the MTC indicated that Ohio performs criminal record background checks on all newly hired employees and contractor during the clearance process. This is done regardless of whether they may have contact with offenders. The employee's information is entered into the system, and a response is sent back by Ohio. The MTC also immediately provides an automatic notification to the agency through e-mail if any criminal charges are brought against any employee or contractor during their employment. Additionally, the agency performs warrant searches during the employee's birth month and six months after their birth month. The disciplinary record all employees considered for promotion is reviewed at the time of consideration.
- Interview with Facility Human Resource Staff indicated that when a former employee applies for work at another facility, upon request from that facility that they would provide requested information as long as it does not violate policies or laws.

Interview Results:

- Interviews with the Warden indicated that a secondary Video Monitoring System was installed at the North Central Correctional Complex September 15, 2016. Along with the existing video surveillance system is both operational and recording to the DVR systems.
- Interviews and documentation indicated that during a 2014 vulnerability analysis, four dorms were recommended for upgrade due to the frequency of incidents occurring in the dorms. Incidents generally

consisted of fights and thefts. These four doors (Morrow C/D, Wyandot C/D, Crawford C/D, and Marion A/B) had additional cameras installed in 2015.

During a 2016 vulnerability analysis, upgrades to existing cameras in six dorms were recommended. Those six dorms are Marion C/D, Hardin A/B, Hardin C/D, Wyandot A/B, Crawford A/B, and Morrow A/B. Cameras were upgraded in each of these dorms in 2017. Hardin A/B is currently experiencing video feed issues due to underground water. Vendors are being contracted for repairs bids.

(A) Policy requires the agency/facility to initiate and/or conduct administrative and criminal sexual abuse investigations to include inmate-on-inmate sexual abuse or staff sexual misconduct. The facility has designated a facility Investigator. The state PREA Investigation Unit and the State Police can investigate administrative and criminal sexual abuse based on the nature of the case. Interview with the Facility investigator indicated that policy requires and give them guidelines to follow a uniform evidence protocol.

(B) The facility utilizes the internal and external offices to conduct investigations regarding all felony related crimes to include alleged sexual violence that occurred at the facility. Both the facility and the external office

follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

The protocol is appropriate, and is adapted from or otherwise based on the most recent edition of the U.S. Department of Justice's Office on Violence Against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents," or similarly comprehensive and authoritative protocols developed after 2011. The facility does not house Youth/Adolescents.

(C) The facility offer all victims of sexual abuse access to forensic medical examinations at an outside facility, the local hospital without financial cost. The local hospital provides a Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs). If one is not available, the examination is performed by a qualified medical staff. The facility provides emails for efforts to provide SANE or SAFE staff.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of forensic medical exams conducted during the past 12 months was 0.
- The number of exams performed by SANEs or SAFEs during the past 12 months was 0.
- The number of exams performed by a qualified medical practitioner during the past 12 months was 0.

(D, E) The facility makes available to the victim a victim advocate. If not available to provide victim advocate services, the facility makes available (to provide services) a qualified staff member from a community-based organization or a qualified facility staff member. The facility provided documentation that showed efforts to secure services from the Victim Assistance Program – with the Marion County.

The victim advocate is a qualified facility staff member, or qualified community-based organization staff that accompanies and supports the victim through the forensic medical examination process and investigatory interviews and provides emotional support, crisis intervention, information, and referrals as needed.

(F, G) When PREA allegation is investigated by an outside agency, the facility request that the investigator follow the PREA requirements. The preponderance of Evidence is defined as proof by evidence that, compared with evidence opposing it, leads to the conclusions that the fact at issue is more probably true than not. Policy also states that as a result of the preponderance of the evidence, the investigator may determine whether the allegation is substantiated.

(H) The facility defines a qualified facility staff member or a qualified community- based staff member as an individual who has been screened for appropriateness to serve in this role and has received education concerning sexual assault and forensic examination.

Interview Results:

- One hundred percent (100%) of the interviewed security staff was knowledgeable of the staff member (s) responsible for internal investigations. Most of the staff could clearly articulate the internal investigator that conducted PREA interviews, the PREA Compliance Manager, and an on-site/external investigator.
- Most of the staff were able to describe the process and steps required to protect physical evidence; which included securing the area, protecting the physical evidence, not allowing the victim to shower or

brush teethe, and immediately seeking medical attention. One-hundred percent of the interviewed staff could articulate immediate notification to the supervisor, as the first process to protect any usable evidence.

- One (1) inmate reported that in 2016, he reported sexual harassment via the hotline number. He stated that within one or two weeks the staff was removed from his detail, however he is still employed at the agency. The inmate stated that he has not had any further problems with the staff. The allegation of sexual harassment was associated with the staff alleging using derogatory language regarding his sexual orientation. Another inmate reported that several days prior to the audit he contacted the PREA hotline, making a report against an officer who questioned what the inmate had on his chest. The inmate reported that he responded “breast” and the officer said, “a man doesn’t have breast” and proceeded to call him a “fag”.
- Documentation submitted by the facility and confirmed by the Facility PREA Compliance Manager, that the facility has contacted the Victim Assistance Program – with the Marion County for the needed support. Victim Assistance Program – with the Marion County has agreed to provide assistance to the North Central Correctional Complex as needed.
- Interview with the PREA Compliance Manager and documentation indicated that there have been no requested or need for a victim representative to be used at the North Central Correctional Complex as of July 16, 2018.
- Interview and documentation indicated that there are no SAFE or SANE available in the community, therefore the North Central Correctional Complex sends all sexual abuse victims to the local hospital for an examination by a licensed physician immediately if needed.
- Interviewed staff, including the facility investigator, was familiar with the evidence protocol and roles they would play as first responders. Medical staff related their role in the sexual assault would be to provide any first aid that might be needed because of injuring immediate medical attention. The staff stated they would “make sure the inmate victim was stable,” preserve the evidence.
- Interview with the Investigator indicated when outside agencies are responsible for investigating allegations of sexual abuse, the facility requests that the investigating agency follows the requirements of PREA. This includes the standard provision (g) 1 and 2. The policy requires the Warden to request that outside investigative authorities conduct the investigation per PREA investigation standards.
- For victims of sexual assault, interviewed staff indicated that the facility would offer all victims access to forensic medical examinations without financial cost. Staff indicated that SANE/SAFE are provided by the local hospital.

Per MTC requires to be notified immediately and assume control of the investigation when appropriate.

Investigations are documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attach copies of all documentary evidence.

An additional interview with Facility Investigator confirmed the process for receiving an allegation and for conducting the investigation if an alleged sexual abuse was reported. Interviewed staff stated they had been trained to report everything for investigations, including reporting, knowledge, allegations, and suspicion of sexual abuse or sexual harassment. Staff affirmed they are trained to accept reports from all sources, including third parties and anonymous reports.

(A) The Facility has trained staff that has contact with inmates on the requirements stated in this standard. According to staff interviews, sexual abuse and sexual harassment training is provided in pre-service orientation training, in-service and other additional training and include all requirements. The facility provided copies of the training sessions and rosters.

(B) Training is tailored to the gender of the inmates at the employee's facility. Review of documentation revealed that staff receives additional training if the staff is reassigned from a facility that houses only male inmates to a facility that houses only female inmates, or vice versa. The staff will receive this training through additional pre-service training. This facility housed only male inmates.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of staff employed by the facility, who may have contact with inmates, who were trained or retrained on the PREA requirements, was 368.

(C) Current employees have received training, and the facility has provided each employee with refresher training annually to ensure that all employees know the facility's current sexual abuse and sexual harassment policies and procedures. The directive requires additional training for investigators, health practitioners, and mental health staff to receive additional training specific to their areas of responsibility.

(D) The facility documents, through employee signature and electronic verification, staff understanding of the training they have received. The NCCC documents staff training using the Training Acknowledgement form and a training roster, which requires the staff and instructor signature, date and job title.

Interview Results:

- Interviewed twenty (20) security staff that could articulate the topics covered in the PREA training. One hundred percent (100%) of the security staff reported being knowledgeable of the topics they had been trained in. The staff could describe the training on zero tolerance, resident and staff rights, dynamics of sexual abuse and sexual harassment, prevention and response protocol as well supportive services available to inmates. The staff was able to describe specific details on what they learned on communicating effectively with LGBTI residents and identifying signs of victimization. Staff reported that they received PREA related training in pre-service and annual in-service.

In addition to providing PREA education, the facility ensures that key information is continuously and readily available and visible to inmates through posters, inmate handbooks, and other written formats.

Interview Results:

- Thirty-two (32) inmates were interviewed. Approximately 80% of the inmates reported that they recall receiving information upon intake and orientation regarding sexual abuse and harassment. The information was provided to them in a handbook and they watched a video, the first day housed at the facility. Several of the inmates recalled receiving more detailed information during the first week while on the orientation unit. Some of the inmates reported that have been detained for over 10 years, so they can't recall what information was provided or they did not pay attention to what they were given. All the inmates were aware of the PREA hotline, however most them did not know who the calls were going too. The inmates reported that who to contact was posted all over the walls in the housing area and on their bulletin boards.
- The inmates are provided information regarding sexual abuse and harassment in the facility handbook, with the PREA hotline number and videos.
- One (1) intake staff was interviewed. The intake staff reported that immediately upon arrival at the facility, the inmate is provided a handbook. The handbook covers facility rules to include but not limited to PREA. The handbook provides information on internal and external ways to report. Medical will ask additional questions related to prior history of sexual abuse. Inmates are placed in an orientation unit for a week. During that time medical goes over more information related to PREA and they watch a PREA video. Inmates sign an inmate orientation checklist form, acknowledging understanding and receipt of information.

(A) The facility assesses all inmates during intake screening to include inmates that transfer from other prisons for risk of being sexually abused.

(B) Interviews and documentation revealed that intake screenings are taking place within 72 hours of arrival at the NCCC. Also, during intake screening, procedures require staff review available documentation (judgment and sentence, commitment orders, criminal records, investigation reports, field and medical files) for any indication that an inmate has a history of sexually aggressive behavior. Housing assignments are made accordingly.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of inmates entering the facility within the past 12 months whose length of stay in the facility was for 72 hours or more; who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility was 1690.

(C) The facility uses the agency Screening form and the Screening for Risk of Victimization and Abusiveness as the objective screening instruments. Staff interviews for conducting Screening for Risk of Victimization and Abusiveness indicated that the facility uses the agency form and the PREA Intake Objective Screening Instrument to document this process. The PREA Intake Objective Screening Instrument has all of the required criteria. The results of the assessment are documented on the Intake Screening Form whether the inmate is vulnerable or sexually aggressive.

(D) Staff interviews and documentation review reveal that the Screening for Risk of Victimization and Abusiveness include the following:

- o Whether the inmate has a mental, physical, or developmental disability;
- o The age of the inmate;
- o The physical build of the inmate;
- o Whether the inmate has previously been incarcerated;
- o Whether the inmates' criminal history is exclusively nonviolent;
- o Whether the inmate has prior convictions for sex offenses against an adult or child;
- o Whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming;
- o Whether the inmate has previously experienced sexual victimization;
- o The inmate's own perception of vulnerability; and
- o Whether the inmate is detained solely for civil immigration purposes.

(E, F) Agency policy requires that the facility reassess each inmate's risk of victimization or abusiveness within a set time period, not to exceed 30 days after the inmates' arrival at the facility, based upon any additional, relevant information received by the facility since the intake screening.

Interviews and documentation reviewed indicated that the staff reassesses the inmates' risk level for sexual victimization or sexual abusiveness whenever warranted and within 30 days of arrival at the institution if the inmate is identified at risk for victimization or for being at risk for being sexually abusive.

(G, H) Inmates are not disciplined for refusing to answer, or for not disclosing complete information in response to any questions as stated in section (d).

(I) The agency implements appropriate controls on the dissemination within the facility of responses to questions asked under this standard to ensure that sensitive information is not exploited to the inmate's detriment by staff or other inmates as described above.

MTC Offender Data System (ODS) Generated Automated Email: Email B – from ODS notifying the facility PREA Manager that a determination has been made on a PREA investigation and the specific action which is required:

- a. Reassess the inmate's risk of victimization or abusiveness based upon information from the investigation. 114.41.
- b. For substantiated or unsubstantiated sexual abuse allegations, initiate a Sexual Abuse incident Review within 30 days of determination. 115.86
- c. Inform the inmate and document the notification, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. 115.73

Interview Results:

- Interview staff indicated that the facility's PREA Compliance Manager, Intake, and Counseling have access to inmates risk assessment to protect sensitive information from exploitation.
- Interview staff indicated that the initial risk screening assessment considers all the requirements listed in this standard.

(A) MTC prohibits retaliatory behavior by inmates or staff in regards to the reporting of sexual abuse, sexual harassment or cooperation with investigators as it relates PREA related incidents and allegations. Inmate rights documentation and staff policy establish expected conduct. The facility PREA Compliance Manager is responsible for monitoring retaliation along with supervisor's to monitor inmates as it relates to PREA allegations and incidents.

(C)The facility has several protection and reporting measures, for inmates. They can utilize the “Grievance Program” to document retaliatory acts or other PREA related concerns and issues. The process is over-seen by the facility PREA Compliance Manager who works in concert with the facility administrators and investigators to ensure privacy and policy compliance. The facility has the option to change inmate housing or transfer inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

The facility reported that there is no retaliation for this audit reporting period. However, if the facility were to have issues with retaliation, the policy will guide them on this standard. For example, for at least 90 days following a report of sexual abuse, the facility monitors the conduct and treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and act promptly to remedy any retaliation. Items the facility should monitor include inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The facility continues monitoring beyond 90 days if the initial monitoring indicates a continuing need.

MTC Offender Data System (ODS) Generated Automated Email: Email A – from ODS notifying the facility PREA Manager that a new PREA Allegation has been assigned for investigation making sure assigned staff implement actions which ensure the involved offender (s) and/or staff protected from retaliation. Also, any use of involuntary segregated housing for the inmate who alleged suffering sexual abuse shall only be used after an assessment determines there is no available alternative means of separation from likely abusers. The reasons need to be documented within 24 hours of placement.

- b. Document any use of involuntary segregated housing within 24 hours in accordance with standard 115.68, 115.43 and MTC policy 903E.02.

Interviews also revealed that if an assessment cannot be immediately completed, the facility will hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.

A review of the Pre-Audit Questionnaire Adult Prisons & Jails and confirmed by staff interviews:

- The number of inmates who allege to have suffered sexual abuse who were held in involuntary segregated housing in the past 12 months for one to 24 hours awaiting completion of assessment was 0.

The standardized instrument includes, at a minimum, the data necessary to answer all questions from the most recent version of the Survey of Sexual Violence (SSV) conducted by the Department of Justice. MTC aggregates the incident-based sexual abuse data at least annually and generates a comprehensive and informative annual report. Each MTC facility is required by policy to maintain, review and collect data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews.

Interviews indicated MTC has a very sophisticated data system enabling the company to collect and report accurate data to answer all questions on the Survey of Sexual Violence and the system is set up to answer them sequentially. Additionally, the system has the capability for generating valuable reports including the following: PREA Allegations and Investigations Summary Report, PREA Allegations and Investigations Report by Site, Investigations by Facility, Master Investigation Log, Master Investigation Log by Site and others.

(B) The reviewed 2016 MTC Annual Report was comprehensive and detailed and included Demographics of MTC Operated Facilities as well as detailed PREA Data. In addition, incident reviews required by the PREA standards, are now able to be put into the system for review by management. Efforts have been made to provide additional structure within the Offender Data System by triggering automated email distribution following entries into the ODC PREA system. The purpose of the five emails (which include the specific PREA standards being attached to each email for reference/education and duties to be followed) are listed in the following paragraphs:

MTC Offender Data System (ODS) Generated Automated Emails:
