

ECONOMIC & SOCIAL DEVELOPMENT

Providing comprehensive workforce training worldwide

MTC's Economic & Social Development division provides workforce training to people around the world. MTC works with governments, international development organizations, and public/private partners to strengthen people's workplace skills so they can meet the challenges of the global marketplace.

In 2016, MTC began implementing the Egypt Workforce Improvement and Skills Enhancement (WISE) project, funded by the U.S. Agency for International Development. In partnership with Egypt's Ministry of Education and Technical Education, MTC is improving technical education, connecting industry to schools, and training teachers to better prepare young people for the workforce.

MTC has worked with USAID, the World Bank, the United Nations, regional development banks, and national governments to provide workforce training worldwide. MTC has also successfully trained people in: Jordan, China, Pakistan, Tunisia, Iraq, Haiti, South Sudan, Mongolia, and the West Bank.

How we help people

The MTC Impact:

27,114 teachers trained in areas of career guidance, entrepreneurship and innovation, job placement, and training techniques

6,939 students placed in internships or jobs throughout Egypt

11,666 students with gainful employment

40% of wise project participants are women; all have benefited greatly from MTC's services.

"The WISE project, and innovation and entrepreneurship training specifically, has changed my traditional method of presenting the educational curriculum"

~ Ms. Karima, WISE Project Teacher Participant
