

# Caring For Individuals In ICE Custody

## Making an impact in people's lives since 1981

MTC partners with Immigration and Customs Enforcement (ICE) to provide individuals in their care with a comfortable, helpful, and attentive environment. ICE detainees are housed at MTC facilities for very short periods of time, and during that time, MTC provides these men and women with opportunities to further their education, to participate in meaningful activities, and to prepare in all ways to return to their homes and families.

MTC Medical, a subsidiary of MTC, provides quality medical, dental, and mental healthcare to detainees at our facilities. A professional staff of doctors, nurses, and other healthcare professionals ensures detainees are healthy during their time at MTC facilities.

## How we help people

MTC's long history in education and training makes it uniquely effective in serving the needs of detainees. MTC has been a leader in education and training since the early 1980s and uses its expertise to help detainees effectively transition back to their communities. The following is a list of programs and services offered at MTC detention centers:

- INEA Primaria
- INEA Secundaria
- English as a Second Language
- Reading Horizons
- Anger Management
- Cage Your Rage
- Typing Master Pro
- Alcoholics Anonymous
- Counseling
- Know Your Rights
- Library including law library
- Religious Services
- Recreation Including Soccer, Basketball, Handball, Softball, and Volleyball
- Food Service Training

"As an educator, I think that the progressive thought and approach here is to bring these detainees in and to transform them into a very positive way so that when they leave, they hopefully have a different mindset and they will want to continue in developing their own selves and empowering their own selves."

**Mayor Bill Hodge, Calexico, CA**

speaking about MTC's Imperial Regional Detention Facility

**70,224**

hours of services and activities provided to detainees

**5,162**

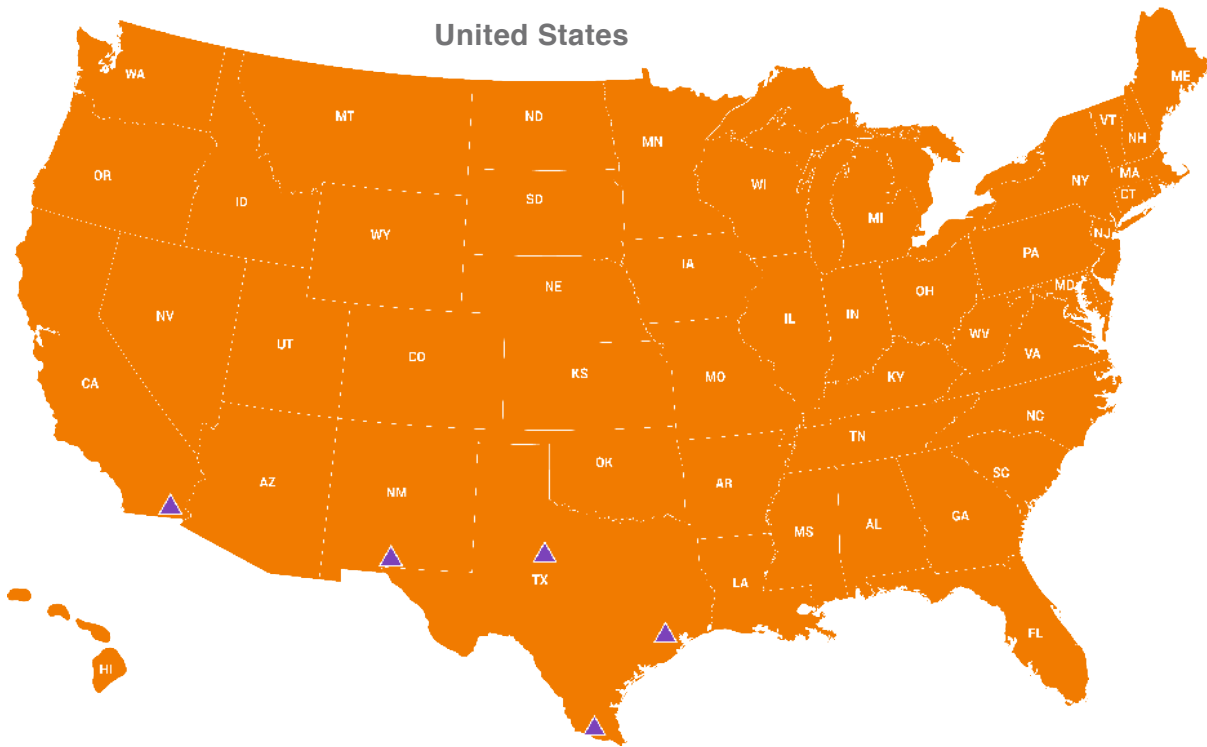

service hours spent helping improve local communities

**4,932**

detainees provided with access to legal resources, quality healthcare, and other services

## Where we provide services

MTC provides more than 4,900 detainees with educational programs and other meaningful services during their short stay.

#### Accreditations / Certifications

- *ACA - American Correctional Association*
- *NCCHC - National Commission of Correctional Health Care*

## Diversity and Inclusion

We're all different in many ways and that brings great strength to MTC and to our mission to change lives through education and rehabilitation. We value and appreciate the diversity of our workforce, where a core value is equity in all decisions and activities. Our inclusive culture allows us to form respectful, engaged, and productive teams. More than 51% of our staff nationwide are people of color, with 55% being female. More than 74% of our facility leaders are people of color, with 62% of those we serve being people of color. At MTC we celebrate diversity, equity and inclusion.
