

A LEADER IN SOCIAL IMPACT

MTC MEDICAL

Providing Nearly 17,000 Men and Women with Quality Healthcare at Prisons and Detention Centers

Backed by national accrediting organizations, MTC Medical staff are dedicated to providing quality medical, dental, and mental health services to men and women at our correctional and detention facilities. We value the professional and caring employees we have on the MTC Medical team who are dedicated to improving people's lives.

Mission Statement

Giving people hope, skills, and opportunities for a better life.

The MTC Medical Process

From our doctors and nurses to our mental health professionals, MTC Medical is proud to have the most caring healthcare professionals in the corrections/detention field. At MTC, we call it BIONIC, which stands for "Believe It Or Not I Care". It takes more than skills and experience to be successful in this area of medical service—it takes compassion, empathy, and humanity to effectively treat our clients and educate them on ways to stay healthy.

Diversity and Inclusion

We're all different in many ways and that brings great strength to MTC and to our mission to change lives through education and rehabilitation. We value and appreciate the diversity of the people we serve and our workforce. Our inclusive culture allows us to form respectful, engaged, and productive environments. More than 51% of our staff nationwide are people of color, with 55% being female. More than 74% of our facility leaders are people of color, with 62% of those we serve being people of color. At MTC we celebrate diversity, equity, and inclusion.
