

Economic and Social Development

Providing comprehensive workforce training worldwide

MTC's Economic & Social Development division provides workforce training to people around the world. MTC works with governments, international development organizations, and public/private partners to strengthen people's workplace skills so they can meet the challenges of the global marketplace.

MTC Launches New Project in Morocco

MTC has been awarded a contract to be the technical assistance provider for a newly created Moroccan public private partnership (PPP) called the Institute of the National Federation of Construction and Public Works (IFNBTP). The principal partner in IFNBTP is the Federation of Construction and Public Works, a collective of Moroccan construction companies. MTC will assist IFNBTP in launching a new residential construction training center in Fez, Morocco which also will bear the name IFNBTP.

In 2016, MTC began implementing the Egypt Workforce Improvement and Skills Enhancement (WISE) project, funded by the U.S. Agency for International Development. In partnership with Egypt's Ministry of Education and Technical Education, MTC is improving technical education, connecting industry to schools, and training teachers to better prepare young people for the workforce.

How we help people

The MTC Impact:

27,114 teachers trained in areas of career guidance, entrepreneurship and innovation, job placement, and training techniques

6,939 students placed in internships or jobs throughout Egypt

11,666 students with gainful employment

"The school is very good ... it has all the tools we need for learning, and the teachers are very helpful and conscientious... My dream is to join the faculty of agricultural engineering at a university and then work as an agricultural engineer."

Mohamed Hussein Ibrahim
first-year student at WISE-supported
Salhia Applied Technology School,
Sharquia

"The training at school has been excellent...I learned about entrepreneurship, communication, presentation, marketing, and business planning."

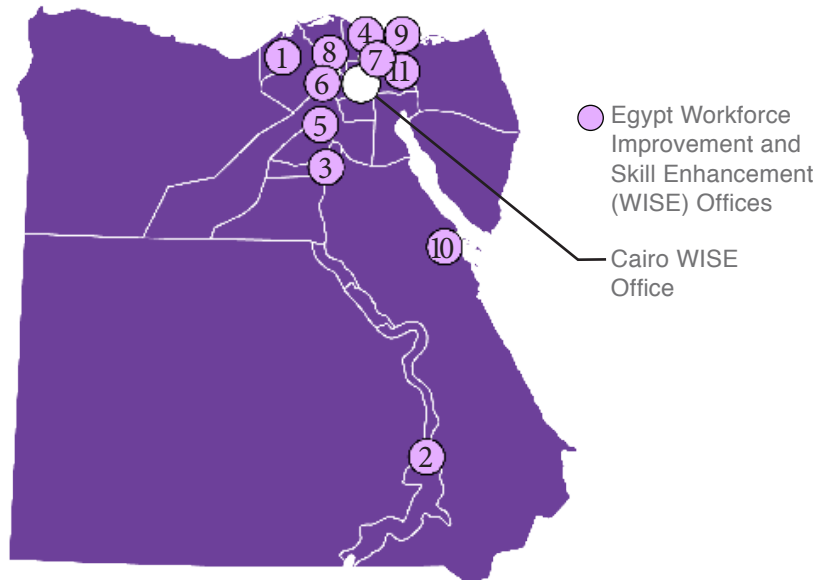

Iman Hamadah
third-year student at WISE-supported
Hurghada Technical School, Red Sea

"I received career guidance and learned about entrepreneurship at the school's 15-day training camp; the school's solar camp was like being at a real work site with all the tools and materials. The on-site training covered all aspects of solar energy."

Taha Abdel Karim
third-year student at WISE-supported
Benban Secondary School, Aswan

Workforce Improvement and Skill Enhancement Offices

Ministry of Education and Technical Education Governorate Offices Served by MTC

1- Alexandria

2- Aswan

3- Beni Suef

4- Damietta

5- Fayoum

6- Gharbiya

7- Ismailia

8- Menoufia

9- Port Said

10- Red Sea

11- Sharquia

“The Benban Secondary School has changed my life. At first, I was unhappy about going to technical school, but now I feel proud, competent, and full of ambition. Ultimately, I want to establish a company for training on the installation and maintenance of solar energy systems. However, after I get my diploma, I would like to gain more practical experience in the field, hopefully, overseas through a scholarship program.”

Saad Mohamed Abdullah | third-year student at WISE-supported Benban Secondary School, Aswan

Diversity and Inclusion

We're all different in many ways and that brings great strength to MTC and to our mission to change lives through education and rehabilitation. We value and appreciate the diversity of our workforce, where a core value is equity in all decisions and activities. Our inclusive culture allows us to form respectful, engaged, and productive teams. More than 51% of our staff nationwide are people of color, with 55% being female. More than 74% of our facility leaders are people of color, with 62% of those we serve being people of color. At MTC we celebrate diversity, equity and inclusion.
