### Rehabilitating More Than 25,000 People at Correctional Facilities Throughout the World

For 40 years, MTC has worked with at-risk, underserved men and women to empower them with vital tools that will change their lives. We provide a wide range of effective rehabilitation programs, vocational training, counseling, cognitive behavior intervention, education courses, including college programs, and life skills programming that leads to better lives. Our mission is to help each man and woman in our care make lifelong changes so they're successful in society after release.

### Mission Statement

Giving people hope, skills, and opportunities for a better life.

### Research Shows Education and Training Reduces Recidivism

Men and women at MTC facilities receive a wide variety of evidence-based rehabilitation opportunities including:

- Cognitive and behavioral development programs
- Academic courses
- Vocational training
- Substance abuse programs
- Gender-responsive and trauma-informed rehabilitation
- Relationship and life skills courses
- Faith-based activities

### MTC Rehabilitation Model

MTC's successful rehabilitation approach begins with a personal assessment. Each person in our care has unique needs. A personal assessment allows us to customize the care and rehabilitation we offer to achieve the greatest success. Our caring and compassionate staff then provide effective treatment programs, education, and job training based on the individual's needs. We round off our rehabilitation approach with programs to encourage healthy relationships, which are critical to successful re-entry.

## Community Partnerships

MTC is proud to be an active and engaged member of our communities. Our staff and residents invest countless hours every year working with various non-profit organizations and other groups. Representatives from local government, business, and civic organizations serve on our facilities' community relations councils. We deeply value these partnerships and friendships and know that together we can help improve people's lives.

## Diversity and Inclusion

We're all different in many ways and that brings great strength to MTC and to our mission to change lives through education and rehabilitation. We value and appreciate the diversity of our workforce. Our inclusive culture allows us to form respectful, engaged, and productive teams. More than 51% of our staff nationwide are people of color, with 55% being female. More than 74% of our facility leaders are people of color, with 62% of those we serve being people of color. At MTC we celebrate diversity, equity, and inclusion.

## National Accreditations and Certifications

Our facilities are highly accountable. In addition to regular and rigorous audits by our customers, our facilities also strive to receive accreditation from various national corrections associations.

## Making a Worldwide Social Impact

We know that well-trained, caring, and compassionate staff and evidence-based programs are key to successfully helping incarcerated men and women change their lives. We have taken this philosophy and approach across the world to help people outside the U.S. In addition to the 25,000 people we serve in the U.S., we also provide rehabilitation services to more than 1,300 men at the Parklea Correctional Centre in Australia. We look to expand our reach abroad in an effort to improve people's lives and reduce recidivism.
