Facility AUDIT FINDINGS

Summary of Audit Findings

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Targeted Inmate/Resident/Detainee Interviews

58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:

14

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:

b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).	<p>During the facility tour, the auditor did not observe any transgender or intersex inmates. Medical staff confirmed there were zero transgender or intersex inmates assigned to the facility at the time of the on-site audit. The PCM and Warden both confirmed there were zero transgender or intersex inmates assigned to the facility at the time of the on-site audit.</p>

The inmate who made that allegation is no longer assigned to the facility. The auditor reviewed the inmate roster and the inmate's name was not on the roster.</p>

Other arrangements are made to Safekeep inmates.</p>
<p>70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</p>	<p>The Auditor requested and received a roster of inmates who fell into the targeted categories. The Auditor chose inmates from the list of targeted inmates provided by the facility staff. Once selected, each inmate was put on “call- out” with a time to report to the private space designated for interviews.</p> <p>Breakdown of Targeted Inmate Interviews</p> <p>Transgender or Intersex – 0</p> <p>Gay or Bisexual – 3</p> <p>Physically Disabled – 1</p> <p>Cognitively Disabled – 1</p> <p>Hearing Impaired – 1</p> <p>Visually Impaired – 1</p> <p>LEP - 6</p> <p>Reported Abuse – 0</p> <p>Disclosed Abuse in Screening – 1</p> <p>Inmates in Segregated Housing for PREA – 0</p> <p>Youthful Inmates - 0</p> <p>At the beginning of each interview the Auditor made clear to the inmate why she was at the facility, what her role was in the PREA process and explained why interviews were needed. The Auditor also discussed the inmate’s participation as voluntary and while helpful, was not required or mandated in any way. The Auditor then asked the inmate if he wanted to participate and if so, could she ask him a few questions. The Auditor would then ask the random protocol questions followed by the specific targeted protocol questions. All responses were typed directly onto the protocol form.</p> <p>Regarding personal safety, all inmates interviewed reported they felt safe from sexual harassment and sexual abuse.</p>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?	<input checked="checked" type="radio"/> Yes <input type="radio"/> No
Was the site review an active, inquiring process that included the following:	
85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?	<input checked="checked" type="radio"/> Yes <input type="radio"/> No
86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="checked" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="checked" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="checked" type="radio"/> Yes <input type="radio"/> No

89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).

Billy Moore Correctional Center (BMCC) is a private state prison for men located in Overton, Rusk County, Texas. The physical location is 8500 FM 3053 North, Overton, TX. It is a 500-bed capacity, male offender correctional facility operated by the Management & Training Corporation (MTC) for the Texas Department of Criminal Justice (TDCJ). The facility employs a total of 85 staff to provide the care and custody of G1 and G2 security inmates and manage programs to assist inmates in reentry into becoming productive citizens.

BMCC has six general population dormitories (A, B, C, D, E, and F Dorms). Each dorm can house 84 offenders in 42 double occupancy cells. There is a short-term segregation/restricted housing unit with nine single occupancy cells. All cells are equipped with a sink and toilet inside the cell. The showers are single stall showers located outside the cell on the unit. The showers have privacy screens to prevent opposite sex staff viewing an inmate showering.

The facility has an inmate food service area with kitchen, dining room, steward office, inmate restroom, staff restroom, dish room, freezer, refrigeration, cooking area, kitchen tool room and serving line. There is also a separate, but connected via a locked door, officer dining area. Apart from the officer dining area, all other areas of food service are under camera surveillance, mirrors, or staff supervision. There were no blind spots noted in the food service area. There are PREA informational posters, including zero tolerance, in the food service area.

The facility has a laundry service area which is supervised by correctional staff and employs inmate workers. The laundry is under camera surveillance and is also monitored by facility staff and security mirrors. There were no blind spots noted in the laundry. There are PREA informational posters, including zero-tolerance, in the laundry area.

The facility has a medical services department, as well as a mental health

services department. This department contains treatment rooms, pharmacy, medical records, waiting area and offices. There is PREA information, including zero tolerance notifications, located in the waiting area. There are correctional officers assigned to the medical and mental health department, whenever inmates are in this area. This department is always operational 12 hours a day with on-call staff on duty.

The facility has an education department. This department contains classrooms and support services. Multiple educational programs are available to inmates housed at Billy Moore Correctional Center. All eligible inmates are encouraged to take adult basic education courses and obtain their GED. Vocational training offered at BMCC includes electrical wiring systems, computer skills/ keyboarding, blueprint reading, custodial work, and painting. Additional courses provided to offenders include life skills, anger management, and alcohol/substance abuse education.

The facility has multiple recreation areas located on the compound. The inside recreational areas include a gymnasium, activity center, and exercise equipment. There is also outdoor recreation available. Informational PREA posters including zero-tolerance posters are located throughout the recreation area. The recreational bathroom areas includes partitions and doors to provide privacy. There were PREA information boards in each of the recreational areas. Recreational areas are also outfitted with a toilet. Each toilet has a barrier to provide the inmate privacy from opposite sex staff when in use. Other areas of the facility which were toured were the barber shop, law library, leisure library, shift office, visitation, administration, commissary, strip search areas, recreational areas, back gate, and housing units.

The facility has a plethora of cameras strategically placed around the facility. This combined with security mirrors and security officers present a multifaceted and

comprehensive approach to inmate accountability and facility security. During the facility tour, the Auditor observed appropriate PREA signage, including the Pre-Audit Notice. PREA information about whom to call or contact in the event of a PREA allegation is posted on the walls and by telephones throughout the facility. Additionally, during the facility tour the Auditor looked for appropriate facility lay-out, bathroom privacy, blind spots, placement of cameras, security mirrors, custodial staff to inmate ratio in housing units and on work assignments. The Auditor was given complete, unimpeded access to all areas of the facility.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

☒ Yes

☐ No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

Personnel and Training Files:

The PAQ reflects 85 facility staff. There were a total of fifty record reviews conducted on staff from various categories. The records were selected by randomly choosing names from the master staff roster.

All records contained the required documentation, i.e., initial criminal history check, administrative adjudication, initial PREA education with acknowledgment form signed, PREA annual training and five-year criminal history check, when applicable.

Inmate Records:

There were fifty inmate records reviewed, chosen randomly from the master roster. All records had a signed acknowledgment sheet, had received PREA information and viewed the PREA video. All inmates had received PREA information during intake, had their PREA screening within 72 hours of admission, and had comprehensive PREA education within 30-days of intake. Finally, they were reassessed within thirty days of their initial 72-hour assessment.

Sexual Abuse and Sexual Harassment Allegations:

According to the PAQ, the facility reported one allegations of sexual abuse and zero sexual harassment allegations in the past twelve months. All PREA investigative files were reviewed.

The Auditor was provided the PREA files for every allegation.

The files were reviewed using the PREA audit investigative records review tool to record the following information relative to each investigative report:

- Case# / ID
- Date of Allegation
- Date of Investigation
- Staff-or-Inmate-on-Inmate Sexual Abuse or Sexual Harassment Final Disposition
- Is Disposition Justified?
- Investigating Officers
- Notice Given to Inmate

Investigation Files:

At the time of the audit, information received regarding the allegations of sexual abuse during the past twelve months revealed a total of one allegation reported. They also review other concerns which include physical plant configuration, internal or external oversight bodies, inmate population composition, placement of supervisory staff, line-staff needs and any prevalence of substantiated or unsubstantiated incidents of sexual abuse. Additionally, the Warden stated during staff meetings, staffing plan compliance and any deviations from the staffing plan is frequently discussed.

Through the interview process, intermediate or higher-level staff indicated intermediate and higher-level staff make unannounced rounds routinely and document them in the unit logbook. During random informal conversations with staff, they stated the supervisors conduct unannounced rounds and document them in the logbook. This was validated by the Auditor through a review of the several logbooks.

Through the interview process, it was indicated supervisors tour their units and areas regularly throughout each shift, converse with staff of all levels as well as inmates, and audit, review and sign logbooks. During the time, the Auditor was on-site; supervisors were observed walking and working in various capacities throughout the facility.

Through the interview process, random staff verbalized the prohibition of staff alerting each other when a supervisor is making their rounds.

Through the interview process the PCM and other executive staff indicated routine reviews of the staffing levels, how they affect the inmate programming, various unit counts, as well as any changes or modification to the video monitoring system are consistently conducted.

Provision (a)

The PAQ indicates the facility has a staffing plan, and the plan addresses each of the thirteen items listed in Provision (a). In addition, the facility Staffing Plan indicates it is the policy of the facility to ensure that all relieved posts are staffed at the times specified.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, pp. 7-8, identifies the PREA Coordinator as being responsible for the compilation and reporting of data related to PREA incidents as defined herein, including the data necessary to complete the PREA survey administered by the Federal Bureau of Justice Statistics using a "Survey of Sexual Victimization-Incident Form," SSV-IA and "Survey of Sexual Victimization-State Prison Systems Summary Form," SSV-2.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 6, 3, a, states in part, MTC facilities will develop, document, and make its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring to protect inmates against abuse.

The data is utilized to improve the effectiveness of the Department's efforts toward sexual abuse prevention, detection, and response policies, practices, and training,

including identifying problem areas, taking corrective action, and the preparation of an annual report that includes a comparison of the current year's data and corrective actions with those from prior year. Each Compliance Manager will be responsible for compiling institution specific PREA data and preparing an annual corrective action plan for her/his institution.

The Auditor reviewed copies of the most recent annual PREA staffing report. The report was comprehensive and addressed each of the bullet items required according to Provision (a). On an annual basis, quality assurance audits are conducted to ensure compliance with the established staffing model. The staffing plan is predicated upon a daily facility inmate population of 500.

The PAQ confirms the average daily number of inmates during the past 12 months has been 490.

Reviews of other concerns, such as the physical plant configuration, internal or external oversight bodies, inmate population configuration, and placement of supervisory staff, line-staff needs and any prevalence of substantiated or unsubstantiated incidents of sexual abuse are also consistently conducted.

Provision (b)

The facility has established a minimum staffing requirement. In the event a mandatory post is vacant, the post is filled with overtime staff or staff redirected according to the level of the post.

Texas Department of Criminal Justice (TDCJ), Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 11, number 2, states in circumstances where the staff plan is not complied with, the unit shall document and justify all deviations from the plan. The Shift Supervisor as well as the PCM indicated, when asked, that deviations could occur for the following reasons:

1. Medical Transports
2. Hospital Security
3. Off Unit Staffing
4. Constant Direct Observation

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 6, 3, a, states in part each time the staffing plan is not complied with, the facility documents and justifies all deviations from the staffing plan.

Provision (c)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 6, 3, b, indicates at least once every year the facility, in collaboration with the PREA coordinator, reviews the staffing plan to see whether adjustments are needed in (a) the staffing plan, (b) the deployment of monitoring technology or (c) the allocation of agency/facility resources

to commit to the staffing plan to ensure compliance. The facility will document the review on the Annual Staffing Plan Review Certification and submitted to the MTC PREA coordinator and regional vice president.

Policy requires the staffing plan review be completed in consultation with the PC and other executive staff at least annually. The Auditor was provided with a copy of the most recent Annual Staffing Plan Review. This review discussed the staffing plan, video monitoring and the resources needed to adhere to the staffing pattern.

Policy requires an internal audit of the staffing plan to be conducted on an annual basis. This assessment is an extensive review of all areas of the facility to ensure adequate staffing levels exist where inmates may be present. Justification for the need for additional staff or modifications to the facility, to include the deployment of video monitoring equipment, is addressed on an annual basis.

The annual review of the staffing plan includes facility and department management level staff which include the PC and other institutional Executive Staff.

The Auditor reviewed shift rosters for respective shifts and was able to verify that an assigned staff member covered every mandatory post.

The facility has a total of 46 cameras which are supplemented with convex security mirrors coverage throughout the facility. The camera system has been well thought out, and strategically designed to the maximum amount of area possible. Trained staff monitor camera and video surveillance 24 hours a day. These cameras enhance the level of safety and security for staff and inmates.

Provision (d)

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 9, B, 1, states security supervisors at each unit shall conduct and document unannounced rounds to identify and deter sexual abuse and sexual harassment. During these meetings, the executive staff would meet with all key supervisors and managers to discuss any pertinent issues, such as Data/Reporting issues, Grievances, Disciplinary Reviews, Video Summary Reviews, Use of Force Incidents, Incidents of Sexual Abuse, as well as the analysis of key data such as overtime, leave time, morale, etc.

During the examination, the inmate meets the victim advocate and arrangements are made to provide any necessary and/or requested counseling services. Follow-up counseling is coordinated through the OVR, in collaboration with mental health services.

Through the interview process, the SAFE/SANE representative confirmed the examinations are provided at no cost to the inmate and that all forensic services are provided when the inmate alleges sexual abuse, sexual assault, or sexual battery. All forensic examinations consist of an assessment, documentation, and collection of evidence as outline in the Attorney General's "Adult and Child Sexual Assault Protocols: Initial Forensic Physical Examination.

Provision (a)

On the PAQ, the facility reported the facility is responsible for conducting administrative investigation within the facility. Further, the PAQ reflects, the Office of the Inspector General (OIG) is responsible for conducting all criminal investigations.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 25, V, A, 1, states all allegations of sexual abuse shall follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 8, 9, a, indicates to the extent MTC is responsible for investigating allegations of sexual abuse, MTC will follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.

Provision (b)

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 25, V, A, 2, states The protocol shall be developmentally appropriate for youth, where applicable, and, as appropriate, shall be adapted from or otherwise based on the most recent edition of the U.S. Department of Justice Office on Violence against Women publication, "A National Protocol for Sexual Assault Medical Forensic Examinations, Adults/Adolescents," or similarly comprehensive and authoritative protocols developed after 2011.

According to the PAQ, the facility does not house youthful offenders.

Provision (c)

On the PAQ, the facility reported all treatment services are provided to the victim without financial cost. Further, the PAQ reports that all forensic examinations have been completed at the nearest hospital emergency department. Texas State Law (SB-1191) requires that ER staff have specialized training to complete a forensic examination but does not require that be SANE or SAFE training. When possible SAFE

or SANE will be utilized.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 13, F, 5, states all offender victims of sexual abuse shall be offered access to forensic medical examinations, whether on-site or at an outside medical facility, without financial cost, where evidentiary or medically appropriate. Such examination shall be performed by a sexual assault forensic examiner (SAFE) or sexual assault nurse examiner (SANE) when possible. If neither a SAFE nor SANE can be made available, the examination may be performed by other qualified medical practitioners in accordance with CMHC policies. Efforts to provide a SAFE or SANE shall be documented.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 8, 9, b, indicates MTC will offer all victims of sexual abuse access to forensic medical examinations, whether on-site or at an outside facility, without financial cost, where evidentiary or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. MTC will document efforts to provide SAFEs or SANEs.

SAFE/SANE personnel reported the forensic program is responsible for conducting all forensic medical examinations for the facility. SANE personnel are available 24/7/365; however, if unforeseen circumstances arise and SANE personnel cannot perform the exam, an ER physician and ER registered nurse with a minimum of two hours of forensic evidence collection training may perform the exam. The exam starts with an explanation of the exam and written consent from the patient. From there the SANE will gather demographic information and past medical and surgical history. Details of the assault will be documented in the patient's words in the forensic medical record. After all information is obtained, the SANE will do a head- to-toe assessment, document trauma, and take photographs with the patient's consent. A detailed genital exam will be done with the use of high-resolution digital imaging with the patient's consent. Forensic evidence is collected in conjunction with the head-to-toe assessment and genital assessment. Evidence is packaged and secured while maintaining chain of custody until it can be released to law enforcement. After the exam, the SANE will discuss prophylaxis medication to prevent sexually transmitted infections, including HIV. If the patient is female, the SANE will also discuss emergency contraception options.

On the PAQ, the facility reported zero forensic examination performed by SANEs/SAFEs during the past twelve months.

Provision (d)

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 12, E, 1, indicates attempts shall be made to make a victim advocate from a rape crisis center available to the offender victim first. If a rape crisis center is not able to provide the offender with victim advocate services, the unit shall make available a

qualified staff member from a community-based organization. If a qualified staff member from a community-based organization is not able to provide the offender with victim advocate services, the unit shall make available a qualified TDCJ staff member to provide the offender with victim advocate services.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 8, 9, c, indicates. MTC will attempt to make available to the victim a victim advocate from a rape crisis center. If a rape crisis center is not available or unwilling to provide victim advocate services, the agency shall make available to provide these services a qualified staff member from a community-based organization, or a qualified MTC staff member. If an MTC staff member is used to provide services, documentation of qualifications will be maintained.

At the time of the audit, information received regarding the allegations of sexual abuse during the past twelve months revealed a total of one allegation reported. The singular allegation was inmate-on-inmate sexual abuse allegation. It was investigated administratively. After investigation it was deemed unsubstantiated.

Provision (e)

As stated in Provision (d) during the examination, the inmate meets the victim advocate. The victim advocate provides emotional support, crisis intervention, information, and referrals as necessary and/or requested.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 12, E, 1, a-b, state:

(3) Not delay or otherwise impede the screening or stabilization of an emergency medical condition.

b. For the purposes of this section, a qualified TDCJ staff member is an offender victim representative (OVR). A review of the TDCJ, Offender Victim Representative (OVR) training curriculum, training handouts, as well as training records confirmed all OVR personnel had completed the required training required by TDCJ policy.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 8, 9, d, indicates if requested by the victim, a victim advocate, qualified MTC staff member, or qualified community-based organization staff member accompanies and supports the victim through the forensic medical examination process and investigatory interviews and provides emotional support, crisis intervention, information, and referrals.

Provision (f)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 8, 9, e, indicates if MTC is not responsible for investigating allegations of sexual abuse and relies on another agency to conduct these investigations, MTC will request (through agreement/MOU) that the responsible agency follow PREA requirements for evidence protocol and forensic examinations.

As reported in Provision (a) all PREA allegations are forwarded to the Office of the Inspector General (OIG) for review for possible criminal charges. The OIG is responsible for conducting all criminal investigations, including inmate-on-inmate sexual abuse and staff sexual misconduct.

Provision (g)

Auditors are not required to audit this provision.

Provision (h)

As reported in Provision (d) victim advocacy services are offered through unit personnel who have received specialized training to be an OVR.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 12, E, 2, a-c, states:

Provision (b)

The policies regarding the TDCJ and the facility indicate there is an obligation to thoroughly investigate all matters relative to sexual abuse and sexual harassment are provided in Provision (a).

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 9, 10, b, indicates MTC requires allegations of sexual abuse or sexual harassment be referred for investigation to an agency with the legal authority to conduct criminal investigations unless the allegation does not involve potentially criminal behavior.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 9, 10, c, indicates in part, facilities will document all referrals of allegations of sexual abuse or sexual harassment for criminal investigation.

Provision (a)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 9, 11, states MTC trains all employees on matters related to PREA as detailed in MTC Policy 901D.02 Training Requirements.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 10, 13, g, indicates medical and mental health care practitioners shall also receive the training mandated for employees under § 115.31 or for contractors and volunteers under §115.32, depending upon the practitioner's status at the agency.

Management & Training Corporation (MTC) policy 901D.02, Training Requirements, dated May 1, 2021, p. 4, 7, c, i-x, indicates employees will be trained in the following:

- i. MTC's zero-tolerance policy for sexual abuse and sexual harassment.
- ii. How to fulfill their responsibilities under MTC sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures.
- iii. The right of inmates to be free from sexual abuse and sexual harassment.
- iv. The right of inmates and employees to be free from retaliation for reporting sexual abuse and sexual harassment.
- v. The dynamics of sexual abuse and sexual harassment in confinement.
- vi. The common reactions of sexual abuse and sexual harassment victims.
- vii. How to detect and respond to signs of threatened and actual sexual abuse.
- viii. How to avoid inappropriate relationships with inmates.
- ix. How to communicate effectively and professionally with inmates, including lesbian, gay, bisexual, transgender, intersex, or gender-nonconforming inmates.
- x. How to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities.

Management & Training Corporation (MTC) policy 901D.02, Training Requirements, dated May 1, 2021, p. 4, 7, d, indicates MTC will document that employees understand the sexual abuse and sexual harassment training they receive.

Management & Training Corporation (MTC) policy 901D.02, Training Requirements,

dated May 1, 2021, p. 4, 8, a, xii, indicates a minimum of 120 hours of training will be provided to all new correctional officer personnel during their first year of employment. At a minimum, this training covers sexual abuse/assault intervention

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, pp. 33-34, a-k, specifies that all employees who may have contact with offenders will be trained in a minimum of:

- a. Zero tolerance policy
- b. How to fulfill responsibilities for sexual abuse and sexual harassment prevention, detection, reporting and response
- c. Inmate's right to be free from sexual abuse and sexual harassment.
- d. The right of inmates and employees to be free from retaliation for reporting sexual abuse and sexual harassment
- e. The dynamics of sexual abuse and sexual harassment in confinement
- f. Common reactions of sexual abuse and sexual harassment victims
- g. How to detect and respond to signs of threatened or actual sexual abuse
- h. How to avoid inappropriate relationships with inmates
- i. How to communicate effectively with LGBTI and gender non-conforming inmates
- j. How to comply with relevant mandatory reporting laws
- k. The common characteristics of victims and predators, sometimes referred to as red flags.

Each employee, contractor or volunteer who may have contact with an inmate is given a TDCJ, FN-1811 (rev. 11/15). This is a foldable pocket size card, which lists step by step what to do in an emergency. One of the emergency situations covered on this card are PREA allegations. It lists step by step what to do in the event of a PREA allegation. In addition to training all staff are required to keep this card on them while on duty.

The ACA/PREA Reference Card is an excellent training and reference tool created specifically for the staff. It is an excellent resource for staff on the housing units, when a PREA allegation is reported. This reference card provides names of contacts in the chain of command, names of Offender Victim Representatives, definitions pertinent to PREA, how to report allegations, what to do if an offender is at risk, the requirement to knock and announce when entering a housing unit, the importance of privacy screens, and who conducts investigations. All staff members interviewed had a reference card on their person. Some stated it made them feel more confident in the PREA procedures.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 34,

C, 1, states all employees who have contact with offenders, including medical and mental health care practitioners, shall receive training as outlined in Section VI, B,1, at least every two years. In the interim years, employees shall be provided refresher information on current sexual abuse and sexual harassment policies. Every employee asked about this card immediately pulled it out and stated how they use the card to ensure there are no missteps in the PREA process.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 35, D, 2, indicates the level and type of training provided to volunteers and contractors shall be specific to the services provided and the level of contact with offenders; however, all volunteers and contractors who have contact with offenders shall be notified of the TDCJ's zero- tolerance policy regarding sexual abuse and sexual harassment and informed of the procedures for reporting incidents.

The Auditor reviewed the PREA curriculum and training materials. The core training materials contain all ten of the elements required for this provision. Each of the elements is covered in detail in the training and has incorporated numbered training elements to facilitate retention of the required elements. The level or complexity of the training will depend on the employee's classification with some specialized training curriculum depending on the employee's job responsibilities.

The Auditor reviewed staff training records, conducted on staff from various categories. Each reviewed file contained all relevant documentation to reflect the staff had met their initial PREA requirements. In addition, the Auditor also reviewed all the sign-in sheets for PREA refresher training for the past twelve months which were confirmed by staff signatures, each of the employees had acknowledged receiving the PREA training.

Provision (b)

The policy regarding the TDCJ's and the facility's responsibility to provide training and education regarding Sexual Abuse and Sexual Harassment are provided in Provision (a).

The training provided by the TDCJ, addresses both male and female issues. However, the training has been tailored specifically to the male inmate population. The Auditor reviewed the training materials utilized for the staff. The training materials are consistent with this PREA standard. If an employee is reassigned from a facility that houses a different population composition, that employee is retrained or provided refresher training for the population make-up of the new facility prior to being placed in contact with the inmate population. The training curriculum did include training specific to transgender inmates.

As stated in Provision (a), the Auditor reviewed documentation for the training and verified attendance of staff.

Provision (c)

According to the PAQ, the facility conducts training with staff monthly to refresh them

	<p>on the policies during shift briefings.</p> <p>Of the 85 staff presently assigned to the facility, the Auditor reviewed documentation that reflected 100% of the staff have received PREA training in the past twelve months. Facility staff also receive refresher training every two years. The Auditor reviewed documents of the training in fiscal year 2022/2023. The facility provides PREA training annually, as well as shift training, staff meetings, educational materials, and posters.</p> <p>Provision (d)</p> <p>PREA training requirements mandate attendance at all PREA required training to be documented through employee signature, acknowledging the training they have received. In some instances, employees are required to complete an Acknowledgement of Receipt of Training upon completion of the training. Copies of these receipts were observed in every record reviewed by the Auditor. The receipts contained various dates which reflected separate training sessions.</p> <p>In instances where a receipt for training material was not required, staff would sign a training attendance sheet, verifying their attendance at the required training. The Auditor viewed copies of each training session for the past twelve months, reflecting training completed by facility staff.</p> <p>Conclusion:</p> <p>The ACA/PREA reference card each staff members carry with them daily combined with the review and analysis of the available evidence; the Auditor has determined that the agency/facility exceeds the standard which addresses policies regarding employee training.</p>

The 125 volunteers and 25 contractors have been trained in agency's policies and procedures regarding sexual abuse and sexual harassment prevention, detection, and response. The Auditor reviewed documentation indicating 100% of the 125 volunteers and 25 contractors have received PREA training in the past twelve months.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 9, 12, indicates MTC will train all volunteers and contractors who have contact with inmates as detailed in MTC Policy 901D.02 Training Requirements.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 35, D, 2, indicates at a minimum volunteers and contractors will be trained in the TDCJ's and the facilities zero tolerance policy regarding sexual abuse, sexual harassment and how to report such incidences.

TDCJ Volunteer Training Facilitation Guide, Prison Rape Elimination Act (PREA) Training Curriculum, was reviewed by the Auditor. The core training materials contain all ten of the elements required for this provision. Each of the elements is covered in detail in the training and have incorporated numbered training elements to facilitate retention of the required elements. The level or complexity of the training will depend on the responsibilities and role of the contractor or volunteer.

Provision (b)

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 35, D, 2, indicates the TDCJ will ensure that all volunteers and contractors who have contact with inmates have been trained on their responsibilities under the agency's

Observations during on-site review:

Around the facility there is a variety of PREA posters, in both English and Spanish. These posters are different throughout the facility so as not to become easy to overlook. During the on-site, the Auditor observed these posters, and other PREA information throughout the facility.

Interviews with the following:

- Intake Staff
- Random Inmates
- PREA Compliance Manager (PCM)

Through the interview process intake staff indicated inmates who enter the care and custody of the TDCJ are provided an Inmate Orientation Handbook upon admission. The inmate signs the acknowledgment form which is retained in the inmate file. Further they indicated they receive their PREA training immediately upon arrival, prior to their unit assignment.

Through the interview process the inmates indicated they remembered receiving written PREA materials and an Inmate Orientation Handbook. The interviewees reported the material they received included information about the facility's zero tolerance policy and ways to report. All interviewees stated their belief the facility took PREA seriously and the PCM frequently checked on them both formally and informally.

During the interview process, the inmates were able to briefly outline what they learned during PREA training. All responses were similar in nature and were generally: zero tolerance for sexual abuse or harassment, right to be free from sexual abuse, sexual harassment, and retaliation for reporting, who to talk to about a concern, who to report an incident to, to mail the PREA Ombudsman, and call the number on the

posters around the facility.

Through the interview process the PCM indicated if an inmate had a disability not covered under the training elements established by the facility. The PCM would work with the Local Disability Assistance personnel to ensure each inmate is able to understand and retain the PREA materials to a comfort level of comprehension.

Provision (a)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 9, 13, 1, states inmates receive information at time of intake about the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or harassment. Information on how to prevent and reduce the risk of sexual violence, as well as explanation of appropriate methods of self-protection and intervention.

Information on how to report sexual assault to staff, including contact information for the Office of Inspector General

TDCJ, Inmate Orientation Handbook, dated February 2017, p. 26, explains the agency's zero tolerance policy regarding sexual abuse and sexual harassment. Further explains how to report incidents or suspicions of sexual abuse and sexual harassment.

The Inmate Orientation Handbook, as well as the PREA Posters were observed during the on-site tour of the facility by the Auditor. The Auditor reviewed written materials in both English and Spanish.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, Attachment Q, is the method of documentation of Safe Prison /PREA Program Offender Sexual Abuse Education. This form has a place for the printed inmate name, TDCJ ID number, inmate signature, date of training, unit where training was conducted, and who facilitated the training. A copy of this form is retained for documentation purposes.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 32, V, A, 1, states during the intake process, offenders shall be provided with educational information explaining the TDCJ's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment in accordance with the TDCJ Classification Plan and TDCJ Unit Classification Procedures Manual.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 32, V, A, 3, states offenders shall receive information as described in Section VI.A.1, if transferred to a different facility, to the extent that the policies and procedures of the new facility differ from those of the previous facility, or if there is no documented record the offender received the information.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 33, V, A, 4, indicates offenders shall be provided education in formats accessible to all offenders, including those who are limited English proficient, deaf, hard of hearing, blind, visually impaired, or otherwise disabled, as well as to offenders who have limited reading skills.

Each housing unit has multiple telephones designated for inmate use. The inmates can have a family member call the PREA Ombudsman to report sexual abuse or harassment on their behalf. These calls are confidential. The inmate can write to the PREA Ombudsman and report sexual abuse or harassment. This was confirmed by the Auditor on the on-site tour.

Provision (b)

According to the PAQ, in the past twelve months there were 596 inmates who were admitted and whose length of stay at the facility was more than thirty days. The PAQ also reflected these inmates were provided the PREA information which included their right to be free from sexual abuse, as well as the policies and procedures for reporting. The PAQ reflected 100% of the inmates admitted to their facility in the past twelve months received the mandated information.

TDCJ, Unit Wardens Directive, Offender Safe Prisons/PREA in Texas Video, dated May 15, 2014, states within 30 days of intake an offender shall be provided with comprehensive education either in person or through video regarding their rights to be free from sexual abuse and sexual harassment, to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents. This video may be presented as a single presentation or in conjunction with the Peer Education Sexual Assault Awareness class. All offenders viewing the video shall sign the training roster to document completion of the training. Completed rosters shall be maintained by the PCM. Also, completion data shall be entered on the Individualized Treatment Plan (ITP) to record offender participation in the training.

Provision (c)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 9, b, indicates inmates who are transferred from one facility to another will be educated regarding their rights to be free from both sexual abuse/harassment and retaliation for reporting such incidents and on MTC policies and procedures for responding to such incidents to the extent that the policies and procedures of the new facility differ from those of the previous facility.

As indicated in Provision (b) 100% of inmates who entered the facility during the past 12-month period received the required PREA training. At the time of PREA implementation, all inmates incarcerated at the facility were required to attend PREA training. Inmates arriving after implementation received their training at intake. This training, at intake, is facilitated through staff going over material and answering any questions the inmate may have. Upon arrival, the inmate is also required to watch a PREA video and is provided an inmate Orientation Handbook and goes through the A&O process. At the end of the A&O process is a question-and-answer period to reinforce retention of the information presented. The information was documented with verification of the training retained in the inmate institutional record. This information is now electronically recorded in the program the TDCJ has implemented agency wide called SPPANS. This program and documentation were reviewed by the Auditor. SPPANS tracks all PREA requirements, from intake to education to assessments and re-assessments. It sends out notices and reminders of time frames and deadlines of upcoming re-assessments, needed referrals, etc. It follows up with referrals that have been made, so the referring personnel know whether the referral has been completed as well as the results of the referral. With this program, no inmate will fall between the cracks or be overlooked. It collects, documents, and stores all information vital to PREA.

It tracks personal information, progress on investigations, it is coded in such a way that it prevents mistakes. Information must be entered in the correct format and all blanks must have a response or it will not allow you to proceed to the next screen. Since this program is agency wide, it also prevents information being lost from one facility to another. The SPPANS program is a real game changer for agency wide PREA compliance.

As indicated in Provision (b) the intake staff provide the PREA information immediately upon arrival into the facility. Interviews with intake staff revealed that upon arrival at the facility inmates are given orientation materials, including PREA related materials, before being assigned to a housing unit. This is a requirement for all inmates, whether they are a new intake or a transfer from another facility.

Provision (d)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 9, 13, c, indicates inmate PREA education is available in accessible formats for all inmates including those who are limited English proficient, deaf, visually impaired, otherwise disabled, or limited in their reading skills.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 33, VI, A, 4, requires that all offenders shall be provided education in formats accessible to all offenders, including those who are limited English proficient, deaf, hard of hearing, blind, visually impaired, or otherwise disabled, as well as to offenders who have limited reading skills.

The various training elements provided to the inmate population range from PREA documents in both English and Spanish, PREA posters in both English and Spanish, to staff members who are fluent in Spanish. They also have a list of staff interpreters on each housing unit.

As a back-up, anytime a translation service is needed and in the unlikely event an interpreter is not available, the staff can use Google Translate. Google translate can be accessed via a computer with an attached microphone to address any translation needs for the inmates of the facility. At the present time, Google Translate supports 103 different languages, and is available 24 hours a day, 7 days a week.

Provision (e)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 9, 13, d, indicates MTC maintains documentation of inmate participation in PREA education sessions.

As stated in previous provisions, all inmates sign a receipt of the Inmate Orientation Handbook, as well as for receipt of the Safe Prisons/PREA Program Offender Sexual Abuse Education. The original of these forms are maintained as documentation. A review of inmate records was conducted, and the signed acknowledgment document was in every file.

Provision (f)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, pp. 9-10, 13, e, indicates MTC ensures that key information about MTC's PREA policies is continuously and readily available or visible through posters, inmate handbooks, or other written formats.

	<p>It is evident the facility administration and the PCM are dedicated to ensuring the inmates receive crucial education about Sexual Abuse and Sexual Harassment. Using varying formats, the inmate population receives valuable information in user friendly, comprehensible ways. The Inmate Orientation Handbook is an excellent tool which specifically lays out the prevention of sexual violence, zero tolerance policy and includes multiple methods inmates can seek assistance regarding sexual violence.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of all the available evidence, the Auditor has determined the agency/facility meets every provision of the standard regarding upgrades to facility and technology.</p>

MTC conducts its own investigations of allegations of sexual abuse, investigators are trained in conducting sexual abuse investigations in confinement settings.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 34, B, 5, a-c mandates that sergeants and above, including Security Threat Group correctional officers and Safe Prisons/PREA officers, shall receive training on conducting sexual abuse investigations in confinement settings. Training shall include:

- A. Techniques for interviewing sexual abuse victims.
- B. Sexual abuse evidence collection and handling; and

MTC, Training Records provided documentation of the specialized training required by this standard.

The Auditor reviewed sign-in sheets and training materials that reflect the general PREA training that is mandated for TDCJ employees, contractors and volunteers outlined in policy and PREA standards. The sign-in sheets confirm, in addition to specialized training, the investigators received the general PREA training mandated for all MTC employees.

OIG, NIC, PREA Training Test Results, confirmed all OIG investigators completed the required training and passed the curriculum post-test.

According to the PAQ there are seven investigators currently employed who have completed the required training. Through staff interviews and review of training documents by the Auditor, each of the assigned investigators has attended the required training and met all training requirements.

Through a review of training records and an interview with the facility investigator, the Auditor was able to confirm that all training requirements have been met.

During the interview process the PCM indicated the following have access to the screening information collected during intake and screenings; Medical Staff, Mental Health Staff, Classification Staff and the PCM have access. All information is limited to a need-to-know basis for staff, only for the purpose of treatment and security and management decisions, such as housing and cell assignments, as well as work, education, and programming assignments.

Through the interview process, classification staff as well as the PCM, indicated they do not discipline any inmate for their refusal to answer these questions during an assessment, each of them indicated they would explain the reason behind the question and attempt to solicit a response. However, no disciplinary action would be taken if the inmate chose not to respond.

Through the interview process, classification staff indicated they monitor the inmate population, and will re-assess when warranted due to a referral, request, incident of sexual abuse or receipt of additional information that may have bearing on the inmate's risk of victimization or abusiveness.

Provision (a)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 10, 16, a, indicates MTC requires that inmates be screened using an objective screening instrument for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their intake.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 16, B, 1, states all offenders shall be assessed during intake, and if transferred to another unit for permanent assignment, to determine the risk of being sexually abused by or sexually abusive toward other offenders.

Provision (b)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 10, 16, a, indicates MTC requires that inmates be screened using an objective screening instrument for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their intake. The facility may determine the screening instrument to be used in consultation with MTC PREA coordinator and the customer agency. The recommended instrument to be used is the MTC form Screening for Risk of Victimization and Abusiveness attachment 903E.02.F01.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 16, B, 2, mandates intake screening shall take place within 24 hours of arrival at the unit in accordance with the SPPOM.

As stated in (a), according to the listed policies all inmates must be screened within

72 hours of arrival.

The Auditor reviewed the PAQ which indicated in the past 12 months, 100% of 601 inmates were screened for the risk of sexual victimization or sexual abusiveness within 72 hours of their entry into the facility.

A list of inmates' arrival dates and dates of evaluation demonstrate compliance with this standard. From the roster of inmates, the Auditor chose files of inmates to review. The files were for inmates from varying housing units, ethnic and racial backgrounds. The names were chosen from a complete alpha roster of inmates. The Auditor reviewed the list and randomly chose names, in no order or sequence, from the roster.

The Auditor reviewed inmate files to ensure they received the training and how that training was completed. All files had verification that the initial screening had occurred within 72-hours of arrival.

Provision (c)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 10, 16, a, indicates MTC requires that inmates be screened using an objective screening instrument for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their intake. The facility may determine the screening instrument to be used in consultation with MTC PREA coordinator and the customer agency. The recommended instrument to be used is the MTC form Screening for Risk of Victimization and Abusiveness attachment 903E.02.F01.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 16, B, 3, indicate assignments shall be made through the collaborative efforts of intake staff, the PCM, and medical and mental health services by using objective screening instruments.

The Auditor reviewed a copy of the intake form and screening assessment form. Staff members who conduct Intake Screenings utilize the Texas Department of Criminal Justice, Offender Intake Processing Psychological Screening Interview, Form CI-69 (revised 3/13). Inmates who surpass the threshold on the screening form are referred to Mental Health for an additional assessment regarding their level of risk, environmental considerations, and treatment needs. The inmate is reassessed within thirty days, after the initial meeting.

The Auditor was able to verify compliance with this provision through the review inmate records, reflecting copies of the required assessments. - LGBTI Inmates

Through the interview process with LGBTI inmates, all reported they were housed in the general population and were not currently, nor had they ever been, housed in a housing unit designed for only LGBTI inmates. The Auditor reviewed an inmate roster and confirmed that all LGBTI inmates were housed in the general population. At the time of the on-site audit, there were zero transgender or intersex inmates assigned to the facility.

Through the interview process the PC indicated according to TDCJ policy, the gender identification of each inmate is initially determined by their legal sex assignment, generally at birth; however, from that point forward every inmate is individually assessed and classified to ensure the safety of the inmate, as well as the safety of the inmate population.

Through the interview process the PC and the PCM, revealed that neither the TDCJ or facility are under any consent decree, legal settlement, or legal judgment requiring the establishment of a dedicated facility, unit, or wing for lesbian, gay, bisexual, transgender, or intersex (LGBTI) inmates. All indicated that LGBTI inmates are housed within the general population unless specific issues are present and only then the appropriate staff will meet with the inmate and address the concerns.

During the interview process the PC, PCM and staff responsible for screening, all indicated the transgender or intersex inmate's views of their own safety is given great weight when making decisions regarding housing placement or programming assignments. They further confirmed that regular classification reassessments are conducted a minimum of every six months, or if the inmate engages in an incident of a sexual nature.

Through the interview process the PCM and staff responsible for screening, all specified the transgender or intersex inmate's views of their own safety is given great weight when making decisions regarding housing placement or programming assignments. These inmates are interviewed further to determine enemies and potential or perceived threats. Housing placement and programming assignments are based on this information.

Through the interview process, the PCM indicated every assessment completed by staff is factored into the placement and programming of each inmate.

Further, the inmate's risk levels, housing and program assignments are guided with the use of these various assessments ensuring that every inmate, especially those at elevated risk of being sexually victimized, are separated from those at substantial risk of being sexually abusive.

Through the interview process staff who are responsible for risk screening, indicated because of the assessment procedures being utilized, each inmate is individually evaluated. Staff not only use the assessment procedures which are in place, additional consideration is given to the discussions with each individual inmate when

making classification and housing decisions.

Through the interview process with staff who are responsible for risk screening, it was indicated the transgender or intersex inmates view of their own safety is taken into thoughtful consideration when determining housing placements and programming assignments. In addition, the staff who are responsible for risk screening indicated because of the assessments that are utilized, each inmate is evaluated individually.

Provision (a)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 11, 17, indicates MTC will use information from the risk screening required to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 18, C, 1, specifies the Unit Classification Committee (UCC), or a similarly designed committee for units without a UCC, shall use information from the risk screening document required by Section III.B of this plan to make housing, bed, work, education, and program assignments with the goal of separating offenders at high risk of being sexually victimized from offenders at high risk of being sexually abusive in accordance with the TDCJ Classification Plan and the TDCJ Unit Classification Procedures Manual.

Following a review of inmate records, the Auditor was able to verify the information from the assessments was being utilized in the various classification decisions made by staff.

Provision (b)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 11, 17, indicates individualized determinations about how to ensure the safety of each inmate will be made.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 18, C, 2, indicates the committee shall make individualized determinations regarding how to ensure the safety of each offender.

Provision (c)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 11, 17, indicates the housing assignments for transgender or intersex inmates will be made on a case-by-case basis.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 19, C, 9 states when deciding to assign a transgender or intersex offender to a unit for male or female offenders, and when making other housing and programming assignments, consideration shall be made on a case-by-case basis with regard to the

health and safety of the offender and potential management or security problems. Housing determinations shall not be made solely based on LGBTI status.

Provision (d)

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 19, C, 9, a, indicates Placement and programming assignments for each transgender or intersex offender shall be reassessed semiannually to review any threats to safety experienced by the offender.

Statement of Fact, Standard 115.42, Use of Screening Information, undated, indicates there have been zero transgender or intersex inmates assigned to the facility during the audit period.

Provision (e)

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 19, C, 9, b, indicates a transgender or intersex offender's views with respect to his or her own safety shall be given thoughtful consideration.

Provision (f)

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 9, B, 7, states offenders identified as transgender, or intersex shall be given the opportunity to shower separately from other offenders in accordance with Correctional Managed Health Care (CMHC) policies.

According to the PC, PCM and the staff responsible for risk screening, each indicated the transgender or intersex inmate's views of their own safety is given thoughtful consideration when providing showering options. In addition, they clarified, transgender or intersex inmates would be able to shower separately from other inmates by utilizing alternate shower times. As previously identified, each of the housing units have shower stalls that have curtains for use by transgender inmates for additional privacy, if desired. The random staff who were interviewed indicated that if a transgender or intersex inmate asked to shower separately, they would arrange a separate shower time from the other inmates. They also reported single stall showers are available in the Restrictive Housing Unit and could be used by transgender or intersex inmates accompanied by facility staff.

Provision (g)

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 19, C, 8, states LGBTI offenders shall not be placed in dedicated facilities, units, or wings solely based on this identification or status, unless the placement is in a dedicated unit wing established in connection with a consent decree, legal settlement, or legal judgment for the purpose of protecting these offenders.

Conclusions:

Based upon the review and analysis of all available evidence, the Auditor has determined the agency/facility meets every provision of the standard requiring the

	use of screening information.

Observations during on-site review

During the on-site portion of the audit, the Auditor observed PREA posters in both English and Spanish throughout the facility. These posters were observed in each housing unit, communal areas, main hallways, intake holding area, dining room, etc.

During the on-site portion of the audit, the Auditor observed PREA information on the walls, by the telephones, and on the housing units. Information included, but was not limited to, PREA tip line, Ombudsman telephone number and address, ways to report PREA allegations, and key elements of the PREA policy such as zero tolerance and the right to be free from retaliation.

During the on-site tour, each phone that was tested was in working order and could be used to call out. All calls for PREA were toll free.

Interview with the following:

- PREA Compliance Manager (PCM)
- Random Staff
- Random Inmates

Throughout the interview process the staff indicated they would accept a report or allegation from the inmate and provide it to their supervisor for further direction. They each also reported inmates can report several different ways which includes telling a staff member, writing the PREA Ombudsman, or telling a family member and have them call the PREA Ombudsman. Staff interviewed stated inmates can privately report sexual abuse or sexual harassment as well, by writing the PREA Ombudsman or the OIG office.

Throughout the interview process the inmates reported they were aware of multiple ways to report incidents of sexual abuse or sexual harassment. These included using the tip line, writing the Ombudsman, contacting the PCM, having family members contact the institution, contacting a staff member, and "writing to the address on the poster." Most indicated they would tell a staff member first.

Throughout the interview process the PCM reported inmates could report abuse or harassment to a public or private entity. The PCM stated inmates could report to the PREA Ombudsman, under the Texas Board of Criminal Justice (TBCJ), which is a separate entity from the TDCJ.

Through interviews with the staff, several methods for staff to privately report sexual abuse of inmates were identified. All staff indicated they may choose to make a private report to their supervisor, another supervisor, the facility PCM, PREA Coordinator or the OIG.

Provision (a)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 11, 19, a, indicates MTC has established procedures allowing for multiple ways internal ways for inmates to report privately to MTC officials about sexual abuse or sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents.

Texas Department of Criminal Justice (TDCJ), Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 20, A, 1, a, offenders shall be provided multiple internal methods to privately report sexual abuse, sexual harassment, and other acts of aggression including, but not limited to, extortion and violence. Offenders may report retaliation by other offenders or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to the incidents.

Texas Department of Criminal Justice, I-202, Offender Orientation Handbook, dated February 2017, p. 28, F, indicates The Safe Prisons/PREA program was established to prevent, detect, and respond to sexual abuse, sexual harassment, extortion, and other acts of violence perpetrated against an offender. The Safe Prisons/PREA Plan and policies provides guidelines necessary to prevent, respond, and investigate acts of aggression. Additionally, the Plan outlines the process of addressing the needs of offenders following an allegation. One of the strategies involved in the Program includes educating offenders to raise awareness regarding the Program and provide direction on methods to prevent and report incidents of sexual abuse or sexual harassment.

Provision (b)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023 p. 11, 19, b, indicates MTC provides at least one way for inmates to report abuse or harassment to a public or private entity or office that is not part of the agency.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023 p. 11, 19, c, indicates inmates detained solely for civil immigration purposes are provided information on how to contact relevant consular officials and relevant officials of the Department of Homeland Security.

Texas Department of Criminal Justice (TDCJ), Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 20, A, 1, b, c, states offenders may report allegations directly to the major, the Office of Inspector General (OIG), or the PREA

Ombudsman. Reports to the PREA ombudsman may be made confidentially and in accordance with ED-02.10, "Prison Rape Elimination Act Complaints and Inquiries." Additionally, offenders may remain anonymous upon request when reporting allegations of sexual abuse and sexual harassment to the PREA Ombudsman.

Texas Department of Criminal Justice, I-202, Offender Orientation Handbook, dated February 2017, p. 28, G, 2, specifies The PREA Ombudsman is a point of contact for offenders who have complaints or inquiries regarding any allegations of sexual abuse or sexual harassment. Offenders may contact the PREA Ombudsman in writing; however, offender family members and friends may contact the PREA Ombudsman in writing or by phone. You may report allegations verbally or in writing, but keep in mind time is of the essence when reporting sexual abuse. Any delay in reporting shall make investigating an incident more challenging.

The facility does not detain inmates solely for civil immigration purposes.

Provision (c)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023 p. 11, 19, d, indicates MTC also mandates that staff must accept reports of sexual assault and sexual harassment made verbally, in writing, anonymously, and from third parties with no exceptions. MTC will take appropriate steps to ensure that staff document verbal reports in a 24-hour timeframe.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 21, A, 4, specifies Staff shall accept reports made verbally, in writing, anonymously, and from third parties, and shall promptly document any verbal reports. Of the inmates interviewed regarding this provision, 100% indicated they were aware of the ability to make reports of sexual abuse or sexual harassment in person and in writing.

Provision (d)

The PAQ states staff may report anonymously to the Office of Inspector General and to the PREA Ombudsman. They can also file a complaint directly in writing to the Office of the Inspector General. They can also report it directly to the PCM at their respective facilities.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023 p. 11, 19, e, indicates MTC has established procedures for staff to privately report sexual abuse and sexual harassment of inmates by documenting the incident and MTC facilities will develop, document, and make its best efforts to comply on a regular basis with a staffing plan and video monitoring to protect inmates against abuse.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 23, B, 2, indicates a method shall be provided for staff to privately report sexual abuse and sexual harassment of offenders. Staff shall accept reports made verbally; in writing, including by letter, Inmate Request to Official (I-60), sick call form, or a

	<p>grievance submitted through the grievance process; anonymously; and from third parties. All verbal reports shall be promptly documented.</p> <p>Conclusions:</p> <p>Based upon the plethora of PREA information available to the inmates and the ease with which the facility has made it for the inmates to report allegation, combined with a review and analysis of all available evidence, the Auditor has determined the agency/facility exceeds the standard relative to inmate reporting.</p>

Observations during on-site review

During the tour of the facility, the Auditor evaluated multiple pay phones to ensure they worked. Each telephone functioned appropriately. The phones are checked once on each shift by an intermediate or higher-level staff member to make sure they are in working order.

During the tour of the facility, the Auditor observed PREA posters and information on the walls throughout the facility. These posters and information around the facility let inmates know they can notify the PCM, or other staff member, of any incident of sexual abuse or sexual harassment.

Interviews with the following:

- Inmates
- PREA Compliance Manager (PCM)

During the interview process the PCM indicated a specially trained staff member victim advocate (OVR) is made available to be present with the victim before, during and following the examination. OVR's have a responsibility to inform any victim that some information the victim shares with them may need to be provided to facility staff. This information may be medical and/or non-medical, for purposes such as institutional security, PREA investigation, and further medical and mental health services. Additionally, the advocate conducts follow-up contacts with the victim to ensure aftercare is arranged and firmly in place.

Through the interview process, inmates reported there was a telephone number and address available for them to contact someone in the event of sexual abuse or sexual harassment. Each reported the call was confidential and toll free.

Provision (a)

On the PAQ the facility reported it provides inmates with access to outside victim advocates for emotional support services related to sexual abuse by:

- Giving inmates mailing addresses and telephone numbers (including toll-free numbers) for local, state, or national victim advocate or rape crisis organizations
- Giving inmates mailing addresses and telephone numbers for the PREA Ombudsman
- Enable reasonable communication between inmates and these organizations in as confidential a manner as possible.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 12, 21, a, indicates MTC facilities provide inmates with access to outside victim advocates for emotional support services related to sexual abuse by doing the following:

- Giving inmates mailing addresses and telephone numbers (including toll-free hotline numbers where available) for local, state, or national victim advocacy or rape crisis organizations.
- Giving inmates mailing addresses and telephone numbers (including toll-free hotline numbers where available) for immigrant services agencies for persons detained solely for civil immigration purposes.
- Enables reasonable communication between inmates and these organizations in as confidential a manner as possible.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p.12, E, 1, specifies attempts shall be made to make a victim advocate from a rape crisis center available to the offender victim first. If a rape crisis center is not able to provide the offender with victim advocate services, the unit shall make available a qualified staff member from a community-based organization. If a qualified staff member from a community-based organization is not able to provide the offender with victim advocate services, the unit shall make available a qualified staff member to provide the offender with victim advocate services.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p.13, E. 3, a, states offenders shall be provided access to victim advocates for emotional support services related to sexual abuse by giving offenders mailing addresses and telephone numbers, including toll-free hotline numbers where available, of local, state, or national victim advocacy or rape crisis organizations. The unit shall enable reasonable communication between offenders and these organizations and agencies, in as confidential a manner as possible.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 6, defines a "Victim Advocate" as a qualified staff member from a rape crisis center or community-based organization who accompanies and supports offenders who were victims of sexual assault through the forensic medical examination process and investigatory interviews and provides emotional support, crisis intervention, information, and referrals. This individual shall have completed a sexual assault training program certified by the Texas Attorney General's office and be employed by a sexual assault program or provide services through a sexual assault program as a volunteer under the supervision of an advocate.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 12, E, 1, a, 1-3 states attempts shall be made to make a victim advocate from a rape crisis center available to the offender victim first. If a rape crisis center is not able to provide the offender with victim advocate services, the unit shall make available a qualified staff member from a community-based organization. If a qualified staff member from a community-based organization is not able to provide the offender

with victim advocate services, the unit shall make available a qualified TDCJ staff member to provide the offender with victim advocate services.

As requested by the offender victim, the victim advocate or qualified TDCJ staff member, or qualified community-based organization staff member shall:

1. Accompany and support the victim through the forensic medical examination process and investigatory interviews;
2. Provide emotional support, crisis intervention, information, and referrals; and
3. Not delay or otherwise impede the screening or stabilization of an emergency medical condition.

Correctional Institution Division, PREA, Statement of Fact, Standard 115.53, dated October 18, 2021, indicates the Texas Department of Criminal Justice (TDCJ) does not detain individuals solely for civil immigration purposes, but TDCJ does make available foreign consulate general addresses for all foreign nationals.

Provision (b)

According to the PAQ the facility tells inmates the extent to which communications will be monitored and the limits of confidentiality due to mandatory reporting laws.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p.13, E. 3, b, states offenders shall be informed, prior to giving them access, of the extent to which these communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p.13, F, 1, specifies offender victims of sexual abuse shall receive timely, unimpeded access to emergency medical treatment and crisis intervention services, the nature and scope of which are determined by medical and mental health practitioners according to their professional judgment in accordance with CMHC policies.

Provision (c)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 12, 21, d, indicates MTC

	<p>facilities maintain memoranda of understanding or other agreements with community service providers that are able to provide inmates with emotional support services related to sexual abuse and MTC also maintains copies and documentations of attempts to enter such agreements.</p> <p>TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 12, E, 1, indicates attempts shall be made to make a victim advocate from a rape crisis center available to the offender victim first. However, at this time an agreement has not been established. The agency/facility continues to solicit community rape crisis organizations across the state which may be willing to establish a partnership with the agency. The effort to obtain an agreement is documented in the letters the agency sends to rape crisis centers.</p> <p>Conclusion:</p> <p>Based upon the review and analysis of all the available evidence, the Auditor has determined the agency/facility meets every provision of the standard regarding inmate access to outside confidential support services.</p>

- MTC First Responder Card

Interviews with the following:

- Warden
- Security Staff - First Responders
- Non-Security First Responders

Through the interview process, the Warden indicated first responder staff have been trained in the PREA process, and frequent training is conducted to ensure competency and compliance.

Through the interview process staff were consistently able to articulate to the Auditor, step-by-step, how to respond to a PREA incident. Staff were aware of the mandate to separate the perpetrator from the victim, preserve physical evidence, as well as the area the incident occurred, seek medical aid, as needed, and report the incident.

During the interview process, security staff first responders confirmed training in the PREA process through annual in-service training, on the job training, staff meetings and turnouts. The PCM frequently reminds them of PREA policies and speaking with them regarding the importance of PREA and sexual safety.

During the interview process, non-security staff indicated they would notify security staff, separate the victim and the perpetrator, direct the victim and the perpetrator not to do anything to destroy evidence and keep the scene secure until security staff arrived. Each verbalized the importance of, as well as their understanding of the need for confidentiality in all cases. Each staff member had their PREA card on them, which reflects step by step what to do in the event of a PREA situation.

Provision (a)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, pp. 13-14, 26, a, indicates MTC has a first responder policy for allegations of sexual abuse. MTC's policy requires that, upon learning of an allegation that an inmate was sexually abused, the first security staff member to respond to the report shall be required to:

- Separate the alleged victim and abuser,
- Preserve and protect any crime scene until appropriate steps can be taken to collect any evidence, and
- If the abuse occurred within a time period that still allows for the collection of physical evidence, request that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating.
- If the abuse occurred within a time period that still allows for the collection of physical evidence, ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. (115.64(a)-1)
- Confidentially (preferably by phone) notify your supervisor.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 26, B, 1, a-e, states after learning of an allegation that an offender was sexually abused, the first correctional officers responding to the report shall:

- a. Notify a security supervisor.
- b. Separate the alleged victim and assailant.
- c. Preserve and protect the crime scene, if applicable, until appropriate steps can be taken to collect any evidence.
- d. Be required to request that the alleged victim not take any actions that could destroy physical evidence, including washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence.
- e. Ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence.

The First Responder card is a pocket size card that outlines clearly the duties of a first responder. Each staff member has one of these. This card ensures that all first responders are full aware of their responsibilities and actions they are required to take..

The PAQ indicated the facility had one allegation for alleged sexual abuse in the past 12-months. Of these allegations of sexual abuse in the past 12 months, a security staff member was the first responder zero times.

In the past 12 months, the staff were notified within a time period that still allowed for the collection of physical evidence zero times.

The documentation review also included the original complaint, the referral for

	<p>investigation, a referral for mental health, and all subsequent available paperwork, including administrative remedy forms and responses where applicable. Where applicable, the inmates were given proper notice of the findings, and the cases were closed.</p> <p>Provision (b)</p> <p>The PAQ indicated the facility had one allegation for alleged sexual abuse in the past 12-months. Interviews with the following:

- First Responders

Through the interview process each first responder was able to articulate their required responsive actions following an alleged sexual abuse incident. Each understood and made appropriate response efforts to an alleged sexual abuse incident and had been appropriately trained to respond to such incidents.

During the interview process the Warden confirmed the coordinated response plan breaks down what the various responsibilities are for the respective staff members and positions. Training is provided routinely through annual in-service training, monthly staff meetings and on-the-job training.

Provision (a)

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 14, 27, indicates each MTC facility will develop a written institutional plan to coordinate actions taken in response to an incident of sexual abuse among staff first responders, medical and mental health practitioners, investigators, and facility leadership.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 26, B, 1, a-h states after learning of an allegation that an offender was sexually abused, the first correctional officers responding to the report shall:

- a. Notify a security supervisor;

- c. Preserve and protect the crime scene, if applicable, until appropriate steps can be taken to collect any evidence;
- d. Be required to request that the alleged victim not take any actions that could

	<p>destroy physical evidence, including washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence.</p> <p>e. Ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating, if the abuse occurred within a time period that still allows for the collection of physical evidence.</p> <p>f. Refer the alleged victim and known abuser to medical and mental health services for examination and evaluation. If medical and mental health staff are not available at the time the allegation is made, staff first responders shall take preliminary steps to protect the victim and shall notify on-call medical or mental health staff. The nature and scope of treatment shall be determined by medical and mental health practitioners in accordance with CMHC policies and Section II.G of this plan.</p> <p>g. As appropriate, the services of a victim advocate or an OVR shall be made available in accordance with this plan.</p> <p>h. Additional information regarding coordinated response procedures may be found in the SPPOM.</p> <p>TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 26, B, 2, states if the first staff responder is not a correctional officer, the responder shall be required to request that the alleged victim not take any actions that could destroy physical evidence and shall immediately notify a correctional officer.</p> <p>Texas Department of Criminal Justice, Safe Prisons/PREA Program, Billy Moore Correctional Center, Sexual Abuse Coordinated Response Plan, undated, is a thorough and comprehensive plan. It contains detailed response actions for staff first responders, supervisors, medical and mental health practitioners, investigators, and facility leadership. It lists the correct forms to use, a chain of command and delegates responsibilities for each step of the process. It includes a Sexual Abuse Investigation Checklist/Attachment G to list dates and times each action was completed and the contact person with agency or department. The Auditor reviewed the Sexual Abuse Investigation Checklist/Attachment G for each allegation that was reported within the previous twelve months. A review of records shows staff followed the actions outlined in the coordinated response plan.</p> <p>Conclusion:</p> <p>Considering the comprehensive Sexual Abuse Coordinated Response Plan combined with the review and analysis of all the available evidence, the Auditor has determined the agency/facility exceeds the standard regarding coordinated response.</p>

The Warden further indicated there are multiple measures used to protect inmates and staff from retaliation. These measures include considering and monitoring if the inmate is being given changes in housing assignments, work assignments or an increase in disciplinary reports. The monitoring of staff includes watching for negative performance reviews or work reassignments. The staff in charge of monitoring retaliation echoed these comments.

Interviews with the following:

- Warden
- Classification Staff

During the interview process classification staff indicated there are multiple housing options available and therefore a sexual abuse victim is not automatically placed in segregation/restricted housing for his protection. Other alternatives are always explored, and segregation/restrictive housing is utilized as a last resort. The Auditor was informed there are numerous areas in the facility to place sexual abuse victims to ensure they are protected from abusers without having to place the victim in segregation/restrictive housing. Classification and the facility's Warden stated they can transfer the abuser or victim to another TDCJ facility if need be. Further they indicated inmates are allowed to participate in programs, education, and work while being housed in segregation/restrictive housing for protection as a sexual abuse victim, consistent with safety and security needs.

Provision (a)

The PAQ indicates the facility has not used segregated/restrictive housing in the past 12-months for PREA related allegations.

MTC Statement of Fact, Standard 115.68, Post Allegation Protective Custody, undated, indicates there has only been 1 sexual abuse allegation reported at the B.M. Moore Unit in the last 12 months.

Management & Training Corporation (MTC) policy 903E.02, Ensuring Safe Prisons, Sexual Safety in Prisons (PREA), dated July 1, 2023, p. 14, 29, indicates MTC may house inmates who are alleged to have suffered sexual abuse in restrictive housing for protective custody, subject to the requirements of PREA §115.43.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 18, C, 3, states offenders at high risk for sexual victimization shall not be placed in protective safekeeping unless an assessment of all available alternatives has been made and it is determined there is no available alternative means of separation from likely abusers. If the assessment cannot be completed immediately, the unit may hold the offender in involuntary segregated/restrictive housing while completing the assessment, for no longer than 24 hours.

TDCJ, Correctional Institution Division, Safe Prisons/PREA Plan, February 2019, p. 18, C, 4, a-b, indicates If a protective safekeeping housing assignment is made pursuant

The reassignment will consist of one of the following options in the order listed:

- a. Assigning the employee to work a non-contact position in the unit or department;

Based on the information provided, the reprimanding authority determines whether an employee hearing is warranted.

TDCJ, Executive Directive, PD-22 (rev. 16), General Rules of Conduct and Disciplinary Action Guidelines for Employees, dated November 1, 2019, p. 18, IX, if the

reprimanding authority determines an employee is not guilty because the violation did not occur or there were extenuating circumstances, a finding of not guilty shall be marked, along with no discipline imposed.

Additionally, if the reprimanding authority determines that an employee is guilty of a violation, but extenuating circumstances justify not imposing disciplinary action, the reprimanding authority shall provide that justification at the bottom of the PERS 185.

Lastly, if the reprimanding authority determines that a violation occurred, the reprimanding authority shall indicate a finding of guilty and decide whether to impose disciplinary action and the severity of the action. TDCJ, Executive Directive, PD-22 (rev. 16), General Rules of Conduct and Disciplinary Action Guidelines for Employees, dated November 1, 2019, p. 25, XI, D, states dismissal is the most severe disciplinary action.

1. If the violation is an EEO rule violation, the appropriate EEO-DAO approves the dismissal after the dismissal recommendation review process is completed.

2. If the violation is a non-EEO rule violation, the reprimanding authority may recommend dismissal; however, only the executive director, deputy executive director or the appropriate division director may approve the dismissal.

3. The reprimanding authority shall document a dismissal recommendation on the PERS 185 and PERS 186, Dismissal Recommendation and Action form (Attachment K), then attach the PERS 185 to the PERS 186.
