Targeted Inmate/Resident/Detainee Interviews	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	25
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	6

a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:	<div> <input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees. </div> <div> <input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed. </div>

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

☒ Yes

☐ No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

Documentation Sampling	
Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.	
90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="checked" type="radio"/> Yes <input type="radio"/> No
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	No text provided.

prisons and jails and includes of prohibited behaviors regarding sexual assault and sexual harassment for staff and inmates.

The above policies also included sanctions for staff and inmates found to have participated in prohibited behaviors. Staff members who are found to have perpetrated sexual abuse or sexual harassment are disciplined in accordance with Employee Discipline policy and Facility Rule of Conduct and subject to employment termination. Employees, Contractors and Volunteers are also subject to criminal prosecution.

The above policies include a description of the agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of inmates. Inmates who are found to have perpetrated sexual abuse or sexual harassment are disciplined in accordance with sanctions outlined in the facility's inmate handbook.

The agency's policy also requires that MTC designate an upper level PREA Coordinator for the company who has sufficient time and authority to develop, implement and oversee MTC's efforts to comply with the PREA Standards in all its facilities. Where an agency operates more than one facility, each facility is required to designate a PREA compliance manager with sufficient time and authority to coordinate the facility's efforts to comply with the PREA standards. An interview with the PREA Coordinator confirmed she is knowledgeable of the PREA Standards and has sufficient time and authority to perform her duties in that role.

Auditor received and reviewed the Warden's memorandum and a facility organizational chart, that meet the requirements of this standard. The Warden will appoint a PREA Compliance Manager who will be responsible for ensuring all elements of this policy are met in a coordinated fashion. The East Texas Treatment Facility Warden issued a memorandum to designating a PREA compliance manager with responsibility to coordinate with the Agency PREA coordinator to oversee the implementation and management of the PREA Standards at the facility. An interview with the PREA Compliance Manager confirmed she is knowledgeable of the PREA Standards, committed to Zero Tolerance and has the support of the Warden and Assistant Warden.

The auditor interviewed random staff and confirmed their knowledge of the Zero Tolerance policy. Staff indicated they receive their PREA training on the Zero Tolerance Policy during Pre-Service Training and annually through in-service training.

The auditor interviewed contractors and volunteers about receiving Zero Tolerance Training. Both groups received their training during Pre- Service Training and during In Service Training annually.

The auditor interviewed inmates, and all stated they were made aware of the zero-tolerance policy through intake, orientation, the inmate handbook and through multiple signs and posters located throughout the facility. Inmates indicated they were provided written information upon intake and education during orientation. Inmates explained during orientation, they watched the PREA Video, covered information in the inmate handbook and were given the opportunity to ask questions.

	<p>The orientation is offered in English and in Spanish. Additional program information is contained in the PREA Handbook, and postings distributed throughout the facility (observed during the tour). Auditor Discussion

Auditor reviewed the following documentation to determine compliance:

- Management & Training Center (MTC) 903E.02 Sexual Safety in Prisons (PREA)
- Texas Department of Criminal Justice (TDCJ) Safe Prisons PREA Plan
- TDCJ AD 03.22 Offender Searches
- TDCJ PO 07.023 Administrative Segregation Officer

- TDCJ Pre- Service Curriculum
- MTC Pre- Service Class Schedule
- Pre- Service Completion Roster & PREA Training Acknowledgement Form
- Photographs: Knock and Announce Postings & Dorm Shower Walls & Partitions
- Statement of Fact: Limits to Cross-Gender Viewing and Searches

Management Training Corporation and Texas Department of Criminal Justice have several policies in place prohibiting visual body searches and cavity searches by the opposite gender. A review of the search logs confirmed no cross gender visual body searches or cavity searches were performed.

Both of the above policies mandate that cross-gender strip or cross-gender body cavity searches are prohibited, except in emergency situations or when performed and documented by a medical practitioner. Officers would be required to document all cross-gender strip searches and cross-gender visual body cavity searches. All security staff of the East Texas Treatment Facility receive training on how to conduct cross gender pat searches and searches of transgender and intersex offenders in a professional and respectful manner. Staff received training on cross-gender searches.

It is the policy of East Texas Treatment Facility that staff are not allowed to pat search or strip search inmates of the opposite gender. Interviews with staff confirmed that they were aware of the prohibition of visual body cavity or strip searches of the inmates of the opposite sex except in exigent circumstances. During the past 12 months, there were no exigent circumstances that required cross gender viewing of an unclothed inmate by a staff member at East Texas Treatment Facility.

Auditor learned during security staff and medical interviews staff that Transgender inmate genitals is determined by medical staff after reviewing medical records, discussions with the inmate, and a broader medical examination. There were eight (8) Transgender inmates housed at this facility during the 12- month audit cycle.

A review of the Training Logs and lesson plan confirmed that staff receive training on conducting proper pat searches, inappropriate relationship with inmates, and PREA, during their annual In-service training. All security staff of East Texas Treatment Facility receive training on how to conduct cross gender pat searches and searches of transgender and intersex inmates in a professional and respectful manner. Staff receive Limits to Cross Gender Viewing & Searches training. The lesson plan of this

- Statement of Fact

The above policies mandate that the facility shall not discriminate against offenders with known disabilities and shall provide reasonable accommodations to ensure access to programs, activities, and services in accordance with the Americans with Disabilities Act and the provisions established in this Directive. MTC Policy 903E.02 Sexual Safety in Prisons also establishes local facility to respond to needs of inmates with Disabilities or Limited English Proficiency: Upon identification of an inmate with a disability which prevents them from reading or understanding inmate PREA educational materials, staff conducting initial intake screenings coordinate with other staff as needed to obtain appropriate accommodations addressing the inmate's disability (i.e., referral to medical as appropriate).

The facility houses several offenders that are cognitively disabled. Two of the cognitive offenders were interviewed. Each were aware of the PREA rules and how to report allegations of sexual abuse or sexual harassment. Both inmates explained that they received their PREA information within the first day of arrival.

The facility staff ensures that inmates with all disabilities listed in 115.16a have an equal opportunity to participate in and benefit from all aspects of the facilities efforts to prevent, detect and respond to sexual abuse and sexual harassment. The disabled inmates interviewed stated they were instructed about PREA compliance and felt safe from sexual abuse. All PREA related information (written information), including postings, brochures and handouts are available in English, and Spanish. The institution has access to additional languages written material if required. Staff also may read information to inmates when necessary. The facility does not rely on inmate interpreters, inmate readers or other types of inmate assistants in the performance of first responder duties or during the investigation of an inmate's sexual abuse/sexual harassment allegations. Interviews with first responders, medical, mental health and investigative staff confirmed their awareness of the prohibition of using inmate interpreters for PREA compliance functions MTC Policy 903E.02 Sexual Safety in Prisons requires facilities to contract with qualified persons to provide languages services including sign language or language proficient offenders. Auditor interviewed with 4 non-English proficient inmates confirmed the availability and use of the staff interpreters and telephonic interpretive services.

The Auditor interviewed the following:

	Auditor Overall Determination: Meets Standard

Auditor Discussion

Auditor reviewed the following documentation and policies to determine compliance:

- TDCJ Safe Prisons / PREA Plan
- MTC 903E.02 - Sexual Safety in Prisons (PREA)
- Correctional Management Health Care (CMHC) G- 57.1
- University of Texas Medical Branch (UTMB) PREA Training Documentation
- PREA Medical Specialize Training Certificates

The East Texas Treatment Facility has policies and procedures in place that mandate specialized training for medical and mental health staff. The facility has full-time medical care staff and full-time mental health staff on site. All mental health and medical staff have received the required specialized training on how to detect and assess signs of sexual abuse and sexual harassment, how to preserve physical evidence of sexual abuse, how to respond effectively and professionally to victims of sexual abuse and sexual harassment, and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment, victim identification, interviewing, reporting and clinical interventions.

Both medical and mental health staff acknowledged, in writing, that they both received and understood the training, as it relates to the PREA. Interviews with medical and mental health staff confirmed awareness of their responsibilities regarding the PREA specialized training medical and mental health staff have attended during the last 12 months. This auditor confirmed this information by reviewing Training records. Medical staff interviewed verified their training and was extremely knowledgeable of sexual abuse and sexual harassment and responses to reporting and identifying sexual abuse or sexual harassment. The auditor contacted a representative from Women's Center of East Texas Crisis Center to verify no sexual assault examination being conducted by facility medical. The auditor reviewed the MOU.

The auditor contacted the UT Health Tyler and spoke with an Emergency Room Nursing Supervisor. She informed me that her Nurses are trained to conduct Forensic examination and will respond to the facility to conduct examinations.

Auditor interviewed the following staff members to determine compliance:

- Medical Supervisor
- Mental Health Supervisor
- PREA Compliance Manager
- Rape Crisis Center Counselor
- UT Health Tyler SANE Nurse

Compliance was determined by review of training curriculum, and interviews with the Health Services Administrator and Mental Health Director.

115.42	Use of screening information
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Auditor reviewed the following documentation and policies to determine compliance:

- TDCJ Safe Prisons / PREA Plan
- MTC Policy 903E.02 - Sexual Safety in Prisons
- Offender Unit Classification Inquiry Screening
- Screening and Risk Forms
- Re- assessment memo
- Separate Showers Memo
- Statement of fact

The above policies provide that risk screening information is used to determine housing, bed, work, and education and program assignments, with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive. Determinations for these assignments are made on a case-by-case basis. Staff members assigned to conduct intake screening have been provided additional training and resource materials to complete this task.

Texas Department of Criminal Justice (TDCJ) or Management Training Corporation (MTC) has no dedicated facilities for transgender or intersex inmates. The facility determines other housing and programming assignments for transgender or intersex inmates on a case by-case basis, to include whether a placement would ensure the inmate's health and safety and whether the placement would present management or security problems. Placement and programming assignments for each transgender or intersex inmate are reassessed at least once every six months.

Policy states that a transgender or intersex inmate's own view with respect to his own safety should be given serious consideration when making these assignments. MTC policy mandates that transgender and intersex inmates are given the opportunity to shower, dress and use the toilet facilities separately from other inmates. The facility had seven (7) transgender inmates assigned during the last 12 months.

The interview with the Agency's PREA Coordinator confirmed that a transgender inmate's genital status is not the sole criteria for placement in a specific facility. During the interviews with staff responsible for screening, and the PREA Compliance Manager, it was confirmed information collected during the risk screening process is reviewed, and assessed with Classification, security, and medical / mental health staff. The information received is used to assist in the determination of housing, bed, work, education, and program assignments.

Auditor interviewed the following individuals:

- PREA Compliance Manager
- Classification Supervisor
- Case Manager
- Targeted Inmates
- Random Inmates

Interviews with staff and inmates, observations of housing assignments and unit activities, as well as an examination of documentation/policy, confirm that the facility is in compliance with this standard.

There is policy and procedures that mandate that East Texas Treatment Facility provides inmates with access to outside victim advocates for emotional support services related to sexual abuse. The facility has successfully entered into an agreement with the Women's Center of East Texas to provide emotional support of victims of sexual abuse. The group provides emotional support services related to sexual abuse (confirmed through a telephone interview with a victim advocate from the agency). The MOU includes victims of sexual assault with confidential emotional support, crisis intervention, information and referrals related to sexual violence. The facility agreed to provide inmates with the mailing addresses and telephone numbers, including toll free hotline numbers. The offender can call and talk with this service anytime.

The East Texas Treatment Facility also provides information for inmates Rape Crisis Hotline. Inmates are informed as part of their orientation process that all telephone calls (except properly placed legal calls) are subject to monitoring and recording and that all mail, except for legal mail, is subject to monitoring as well. The handbook and poster also provide information on how to contact the Texas Board of Criminal Justice (TBCJ) PREA Ombudsman who acts as an anonymous reporting agency between inmates and the TDCJ. Inmate handbook is issued upon the inmate's arrival and cover reporting procedures and provides how to receive the address and phone numbers of the Crisis Center. The above policies mandate that retaliation by staff or inmates against any staff or inmate for reporting an alleged sexual abuse or sexual harassment case is strictly prohibited. The PREA Compliance Manager, Chief of Security, Assistant Warden, and Warden shall monitor all reported cases of sexual abuse or sexual harassment for at least 90 days following any such report to ensure retaliation does not occur. In the case of inmates, this monitoring will include thirty-day status checks by PREA Compliance Manager.

The Assistant Warden is designated to monitor staff retaliation and the Facility PREA Compliance Manager monitors inmates for retaliation. Both inmates and staff are monitored for up to 90 days or more if needed. PREA Compliance Manager monitoring inmates includes reviewing inmate disciplinary reports, housing or program changes. The Assistant Warden monitor staff for any negative job performances. If there is a suggestion of possible retaliation, any evidence of possible retaliation will be referred to the OIG for investigation and the agency PREA Coordinator will be advised of same.

The facility has several protection and reporting measures for inmates. Policy outlines the protection measures available and requires the prompt re-mediation of any type of retaliation, any use of involuntary segregated housing for the inmate who alleged suffering sexual abuse shall only be used after an assessment determines there is a form for documenting retaliation. The PREA compliance manager will conduct periodic status interviews with offenders. The interviewed retaliation monitor related the facility has a zero tolerance for any form of retaliation for reporting or making an allegation of sexual abuse or sexual harassment or for cooperating with an investigation. Once an allegation of sexual abuse or sexual harassment is made, the retaliation monitor contacts the alleged victim to inform them of the monitoring process and how to contact the monitor if needed. The PREA Compliance Manager related the following things could be monitored if the retaliation involved an inmate: disciplinary reports, housing changes, work assignment changes or other movement changes. If the retaliation involved a staff, shift changes and performance appraisals might be monitored. Monitoring would last for 30, 60 and 90 days and even beyond if necessary. The retaliation monitor described a process consistent with the PREA Standards.

A review of the retaliation monitoring confirmed that all inmates that make an allegation of sexual abuse will be monitored. The form contains the requirements for PREA Monitoring including the following: "For at least 90 days following a report of sexual abuse or sexual harassment, the agency shall monitor the conduct and treatment of inmates and staff who reported the sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff and shall act promptly to remedy any such retaliation. Items the agency should monitor include any negative performance reviews or reassignments of staff.

The agency continues to monitor for retaliation beyond 90 days if the initial monitoring indicates a continuing need and an agency's obligation to monitor shall terminate if the agency determines that the allegation is unfounded. Space is provided for documenting the date, time and location of the interview with the staff

They received specialized training for investigating sex crimes in a correctional facility. An administrative and/or criminal investigation will be completed for all allegations of sexual abuse or sexual</p>

harassment. The initial investigation will begin immediately by correctional staff, to ensure preservation of physical and/or circumstantial evidence.

In accordance with contract requirements, the OIG Office or Facility Investigator will be notified immediately and will assume control of the investigation when appropriate. Administrative Investigations will include an effort to determine whether staff actions or failures to act contributed to the abuse and will be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessment, and investigative facts and findings.

Criminal investigations will be documented in a written report that contains a thorough description of physical, testimonial, and documentary evidence and attaches copies of all documentary evidence where feasible. Substantiated allegations of conduct that appears to be criminal will be referred for prosecution.

Investigators will impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated. All written reports of administrative and criminal investigations will be maintained for as long as the alleged abuser is incarcerated or employed by MTC, plus an additional seven years. The departure of an alleged abuser or victim from the employment or control of MTC does not provide a basis for terminating an investigation.

The PREA Compliance Manager tracks sexually abusive or sexual harassment investigations. The facility executive staff will remain informed about the progress of the investigation. If possible, the Warden will request that outside investigative authorities conduct the investigation in accordance with PREA investigation standards.

Facility staff conduct the administrative investigations. Facility staff forward all sexual abuse allegations to the OIG. The OIG will conduct the sexual abuse investigation. Both facility and OIG investigators have received special training in sexual abuse investigations, will conduct such investigations. These investigations will be conducted promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports. The facility staff will cooperate fully with all outside investigative authorities and when required will: Gather and preserve physical and DNA evidence consistent with evidence gathering/ processing procedures outlined in the coordinated response plan. Investigators will collect available electronic monitoring, interview alleged victims, suspected perpetrators, and witnesses, review prior complaints and reports of sexual abuse involving the suspected perpetrator.

When the quality of evidence appears to support a criminal prosecution, compelled interviews will be conducted only after consulting with prosecuting attorneys to determine whether compelled interviews may be an obstacle for subsequent criminal prosecution.

The credibility of an alleged victim, suspect, or witness will be assessed on an individual basis and will not be determined by the person's status as inmate or staff. Inmates who allege sexual abuse will not be submitted to a polygraph examination
